

RE: Council Discussion on Future Ballot Initiatives

Background:

The November 2022 1-cent General Sales Tax ballot issue resulted in 4,039 people voting yes and 4,381 voting no. Although the sales tax initiative that was presented to the public failed, our lack of space for police and parks, and financial challenges are still present.

Analysis:

Staff has been working on possible future ballot initiatives that could address our current and future needs. These potential ballot initiatives will be presented to Council for discussion at the next City Council meeting.

Recommendation:

Staff will be seeking Council's direction on potential ballot initiatives.
