

Issue: Combined Multi-Jurisdictional Enforcement Team Mutual Aid Agreement

Date: June 2, 2022

Submitted By: Joe Campbell, Chief of Police

Background

Currently, the police department has a signed interagency agreement with the COMET task force regarding investigations of trafficking and/or the manufacturing of narcotics and dangerous drugs and the crimes associated with this activity.

The Nixa Police Department utilizes COMET to investigate a variety of crimes most notably drug investigations. Additionally, COMET also is the primary agency responsible for the collection and handling of dangerous materials associated with meth labs we encounter. The collection and processing of these scenes can be very costly.

As a member agency, we are required to pay an annual membership fee based on the number of officers employed at the department. This fee is used to support the operations of the task force and are required for the task force to be eligible for certain federal grant funding.

In addition to the membership fee, COMET requires an interagency agreement to participate in the task force. On a periodic basis, a request to sign an updated agreement is presented by the task force to member agencies. Attached is an updated version of this agreement.

Analysis

A review of this Interagency agreement revealed there are no substantive changes to the agreement other than the list of agencies who are actively participating in the task force. Staff has reviewed this document and has no objections.

Recommendation

Staff recommends approval of this Ordinance.
