

Issue: RESOLUTION #2022-022 – TREE TRIMMING CONTRACTOR

Date: February 10, 2022

Submitted By: Doug Colvin
Assistant City Administrator – Director, Nixa Utilities and Public Works

Background

Nixa Electric utilizes certified tree trimming contractors to assist with vegetation control around overhead power lines. The most recent contract expired at the end of 2021 and a new contract is needed for continued operations.

Following the 2007 and 2008 Ice Storms - Nixa Electric began using certified tree trimming contractors to assist the utility with clearing power lines of limbs. Using certified contractors has become vital for the utility to keep a high level of reliability across the electric distribution system. In addition to raising reliability, using a contractor with certified arborist adds a level of confidence for both the utility and the customers. Customer support for tree trimming operations is as high as it's ever been.

The program, as well as the cost to support it has increased over the years from a very limited amount in the early years costing around \$50,000, to a much larger program today with budget authorization of \$350,000 in 2022. Funds for the program are used for tree trimming and tree removal associated with overhead lines as well as vegetation management (mowing and spraying) in rights-of-way and easements. A smaller part of the program includes other related items such as treatments against Emerald Ash Borer in Nixa parks and a limited tree voucher program. This program is used to replace some customer-owned qualifying trees that have been removed from private property near or growing into power line to locations away from the lines.

Analysis

Staff solicited proposals for tree trimming and line clearing from the public. The successful bidder would be contracted for a period of three years with the potential for two additional 1-year periods. Bids are received for an hourly cost basis for personnel and equipment. In addition to other responsibilities, our in-house three trimmer/certified arborist meets with customers prior to any work, develops work orders and provides daily oversight of the contract work assuring quality and proper cleanup.

Only two proposals were received, one each from Ark-O-Mo and Rumfelt Tree Service. Both have been reviewed and ranked by staff. Rumfelt Tree Service submitted the best qualified proposal. Rumfelt Tree Service happens to be the same company with the recently expired contract. The company has worked for Nixa Utilities for several years and is highly qualified to complete tree trimming operations around overhead high voltage power lines. All company personnel are responsible and work very well with our customers.

The attached Resolution #2022-022 authorizes the City Administrator to execute a contract with Rumfelt Tree Service.
