

Issue: Second Reading Council Bill #2022-073

Date: 07.13.2022

Submitted By: Doug Colvin
Assistant City Administrator – Director, Nixa Utilities and Public Works

Background

As requested, this Council Bill proposes a change in City Code that would allow for customers in the soon-to-be-acquired RDE and Tuscany Hills water and sewer systems to consent to a future annexation to receive Inside City water and sewer rates.

Analysis

Current City Code has separate utility rates for customers served inside the city limits and those outside city limits. As required Chapter 22 of city code, customers outside the city pay a rate that is 1.5 X the regular rate for customers residing in town. Through discussions for the proposed purchase of the RDE water and Tuscany Hills water and sewer systems, council has requested staff to bring this proposal as an option for those customers to lower their rate. This in turn also provides the city future opportunity for growth and additional economic development opportunities through future annexation of the area.

Technically, this bill modifies the current code to allow those customers within the area of the two companies to consent to future annexation into the city to receive the reduced rate. At this time, these customers are not eligible for annexation because their properties are not immediately adjacent to the city limits. At some point in the future as the city grows, the properties with the consent in place would automatically be annexed as their property meets the statute for eligibility.

Recommendation

Staff recommendation is for City Council to adopt this Council Bill

Issue: First Reading Council Bill #2022-073 Amending Chapter 22, Article I

Background

As requested, this Council Bill proposes a change in City Code that would allow for customers in the soon-to-be-acquired RDE and Tuscany Hills water systems to consent to a future annexation to receive Inside City water and sewer rates.

Analysis

Current City Code has separate utility rates for customers served inside the city limits and those outside city limits. As required Chapter 22 of city code, customers outside the city pay a rate that is 1.5 X the regular rate for customers residing in town. Through discussions for the proposed purchase of the RDE water and Tuscany Hills water and sewer systems, council has request staff to bring this proposal as an option for those customers to lower their rate. This in turn also provides the city future opportunity for growth and additional economic development opportunities through future annexation of the area.

Technically, this bill modifies the current code to allow those customers within the area of the two companies to consent to future annexation into the city to receive the reduced rate. Currently, these customers are not eligible for annexation because their properties are not immediately adjacent to the city limits. At some point in the future as the city grows, the properties with the consent in place would automatically be annexed as their property meets the statute for eligibility.

Recommendation

Staff recommendation is for City Council to adopt this Council Bill upon second reading. Staff plans to bring this back for that second reading at the July 25th Council meeting. Until then, we are available to answer any questions and address any concerns you may have.

 37 limits of the City.
 38
