

## **RE: Resolution #2025-13 Authorizing the purchase of Automated External Defibrillators through State cooperative contract.**

### **Background:**

Staff is seeking authorization through this Resolution, to purchase Automated External Defibrillators (AEDs) as approved in the 2025 CIP and Budget.

### **Analysis:**

In the 2025 budget, the electric department requested eight (8) AEDs to be installed in department line trucks. We plan to purchase the AEDs from an approved state Contract #CC250181003, which is a cooperative agreement we use sometimes to purchase equipment.

The AED project has been listed on the departments capital improvements program for a couple of years with the purpose towards enhancing our safety equipment and policies for line personnel.

As a related part of this program, all department staff receives continual training and recertification for CPR and AED operations which would save critical minutes in the event of a shock accident. Though we hope that the only use for these units will be training, having them available in the event something does happen is vital.

### **Recommendation:**

Staff recommends passage of the Resolution to allow this purchase.
