RE: Contract for City Hall Remodel

Background:

As part of the Fiscal Year 2025 budget, the City Council approved \$2,200,333.60 for a remodel of City Hall. This project addresses the need to move the Utility Billing Department into City Hall to consolidate services to provide a better experience for our citizens. It also addresses space constraints, operational inefficiencies, and safety concerns within the building. The remodel is essential for accommodating current and future staffing needs, improving customer service, and enhancing accessibility and safety for both employees and the public.

Analysis:

After evaluating project delivery methods, the City has identified Hamby Construction as the contractor for this project through a cooperative purchasing agreement with Sourcewell. Utilizing this cooperative contract ensures cost competitiveness and streamlines the procurement process, saving both time and administrative resources.

The remodel will be completed in phases to minimize disruption to City operations. Key components of the remodel include:

A new entry and office area for the Utility Billing Department on the west end of the building.

Relocation of the main City Hall entrance to the center of the building to improve wayfinding and public access.

Addition of new office spaces to meet staffing needs.

A larger conference room to better support internal meetings and collaboration.

A significantly expanded City Council Chambers to provide more seating capacity and improve the experience for citizens attending public meetings.

Construction is anticipated to begin July 1, 2025, and is expected to take approximately 6–8 months to complete. The contract with Hamby Construction will have a not-to-exceed amount of \$2,200,000, which falls within the amount already approved by Council in the adopted budget.

Recommendation:

Staff recommends the City Council approve the attached resolution authorizing the City Administrator to enter into a contract with Hamby Construction, using the Sourcewell cooperative contract, for the remodel of City Hall at a cost not to exceed \$2,200,000. This project is critical to supporting the City's continued growth and providing improved service to the community.

CONSTRUCTION CONTRACT FOR NIXA CITY HALL REMODEL PROJECT

THIS CONSTRUCTION CONTRACT FOR NIXA CITY HALL REMODEL PROJECT ("Contract") is made and entered into upon its execution by the City of Nixa, Missouri, a Constitutional Charter City organized under the laws of the State of Missouri ("City") and Hambey Construction, a Limited Liability Company organized under the laws of the State of Missouri ("Contractor").

WHEREAS the City, utilizing a cooperative contract through Sourcewell (Sourcewel lezIQC 2021 Springfield – Hambey Construction – Option 5) desires to engage Contractor to perform certain work related to the remodel of the City's City Hall; and

WHEREAS the City desires to engage Contractor to perform such work under the terms and conditions of this Contract; and

WHEREAS the Contractor desires to perform such work under the terms and conditions of this Contract.

NOW, THEREFORE, for the considerations herein expressed, it is mutually agreed by and between the City and the Contractor as follows:

1. Manner and Time for Completion.

- **1.1.** The Contractor agrees to perform and undertake the work described herein.
- **1.2.** The Contractor shall perform said work in accordance with the standard of care, skill, and expertise ordinarily used by members of the Contractor's profession in the performance of similar work.
- **1.3.** The work is described in Exhibit A, which is attached hereto and incorporated herein by this reference ("Services").
- **1.4.** The rates for the Services provided by the Contractor are established in Exhibit B, which is attached hereto and incorporated herein by this reference.
- **1.5.** Contractor shall furnish all supervision, labor, tools, equipment, materials, and supplies necessary to perform the Services at Contractor's own expense in accordance with the contract documents, any applicable City ordinances, and any applicable state or federal laws within 365 calendar days from the date Contractor is ordered to proceed, which order shall be issued by the City, within 30 days after the date of execution of this Contract. If such order is not issued within 30 days after execution of this Contract, then this Contract shall terminate.
- 2. Addition to Services. The City may add to the Services or delete therefrom services, provided that the total cost of such work does not exceed the total cost authorized herein. The Contractor shall undertake such changed activities only upon the written direction of the City. All such directives and changes shall be in written form and shall be accepted and countersigned by the Contractor.

3. Payment.

3.1. Progress Payments.

- **3.1.1.** Provided that Contractor performs the Services in the manner set forth herein, the City shall pay the Contractor in accordance with the provisions of this Contract, which shall constitute full and complete compensation for the Contractor's work. Such compensation shall be paid in progress payments subject to receipt of a requisition for payment and a statement of the work provided by the Contractor for the period covered by the requisition.
- **3.1.2.** The Contractor is responsible for ensuring that the requisition is received by the City no more than 6 months after completion of the work embraced within said requisition. The City shall have no obligation to pay any requisition which is received by the City more than 6 months after the completion of any work embraced within said requisition.
- **3.1.3.** Such requisition shall include an acknowledgement signed by both the City and the Contractor that the Contractor has fully performed the work to be paid for in such progress payments in conformance with the Contract.
- **3.1.4.** If applicable, the City shall provide notice to the Contractor of any payment amount withheld and the reason for such withheld payment.
- **3.1.5.** The acceptance of any payment under this Contract expressly constitutes a release by the Contractor and its subcontractors from any and all claims which were made or could have been made by the Contractor and its subcontractors against the City which may arise out of or are related to this Contract prior to the date of payment by City.
- **3.1.6.** Requisitions shall be submitted to the City via the AccountsPayable@nixa.com email address, or in writing to the address of the City provided below.
- **3.1.7.** Subject to the provisions of Paragraph 3, the City shall pay the Contractor within 30 days of receipt by the City of the requisition.
- **3.2. Retainage.** City shall withhold 5% from each progress payment as retainage to ensure performance and completion of the Contract. Retainage amounts shall be paid as part of City's Final Payment to Contractor.
- **3.3.** Payment Conditioned on Acceptable Performance. No payment shall be made by City unless the Contractor's performance for work which it seeks payment was completed in compliance with the provisions of this Contract. No partial payment to the Contractor shall operate as approval of acceptance of all work completed by Contractor prior to the date of payment.
- **3.4. Total compensation not to exceed.** It is expressly understood that in no event shall the total compensation and reimbursement to be paid to the Contractor under the terms of this Contract exceed the sum of **\$2,200,000.00** unless specifically and mutually agreed to in writing by both the City and the Contractor.

3.5. Final Completion and Final Payment.

3.5.1. Final Completion is the point at which all work under this Contract has been Page **2** of **13**

completed by the Contractor in strict compliance with the terms of this Contract and the Contractor is ready to receive its Final Payment. Final Completion will only occur when all of the following conditions, unless waived in writing by the City, have been satisfied:

- **3.5.1.1.** All work is complete and in compliance with this Contract.
- **3.5.1.2.** Contractor has submitted to the City a Final Payment Application for all funds remining due under the Contract.
- **3.5.1.3.** Contractor has completed all of its obligations under this Contract, including, without limitation, provided all manufacturer's warranties or any other warranties which are part of the project, provided any manuals for the operation and maintenance of equipment and systems which are part of the project, provided any as-builts or other drawings, any documentation transferring to City ownership of all equipment and materials which are part of the project, and any other close-out requirements reasonably required by the City.
- **3.5.1.4.** Contractor has delivered to the City a final claim statement setting forth in detail all claims of any kind pending against the City or any indemnitee connected with or arising out of this Contract that are pending but not yet resolved. Any claim not specified by the Contractor, whether on behalf of itself or its subcontractors, shall be deemed waived.
- **3.5.2.** Unless otherwise provided in Paragraph 3.5, the manner in which a Final Payment is made shall be governed by the provisions of Paragraph 3.1.
- **3.5.3.** The Contractor shall notify the City, in writing, when it considers Final Completion has been achieved. After receiving such notice, the City shall, within a reasonable time thereafter, schedule an inspection of the work to determine if Final Completion has been achieved. If the City determines that Final Completion has not been achieved, the City shall promptly provide the Contractor with a list of items to be completed or corrected to enable City to certify that Final Completion has been achieved. The Contractor shall promptly perform such work and notify the City upon completion so another inspection can be scheduled. If the City determines that Final Completion has been achieved, the City shall promptly notify the Contractor that all requirements have been met.
- **3.5.4.** The acceptance of Final Payment under this Contract expressly constitutes a release of the City by the Contractor and its subcontractors from any and all claims which were made or could have been made by the Contractor and its subcontractors against the City which may arise out of or are related to this Contract.

3.6. Additional Payment Terms.

- **3.6.1.** Payment to Contractor shall be by check or by electronic funds transfer, at the sole discretion of the City. Payment shall be provided to the Contractor at the address or the account number provided by the Contractor.
- **3.6.2.** Contractor shall, as a condition precedent to any payments made as part of this Contract, sign up and comply with the requirements of the City's payment verification vendor, currently PaymentWorks. The Contractor agrees to reasonably cooperate with the City's payment verification vendor's requests for information.

- 3.7. Liquidated Damages. The parties mutually and expressly agree that time of completion of work by the Contractor is of the essence due to the critical nature of the Nixa City Hall operations and the substantial impact that any delay in substantial completion would have on the City and its residents. Prolonged construction will result in extended periods of operational disruption, continued costs for any necessary temporary accommodations or alternative workspaces for City staff, and an ongoing inability for the public to fully access and utilize the modernized facilities. Such delays also extend internal project management and oversight expenditures and can negatively affect the productivity and morale of City employees during a transitional phase. Therefore, the timely completion of this project is paramount to ensuring the efficient delivery of essential public services and minimizing financial and operational burdens on the City. Should Contractor, or in the case of default, the surety, fail to substantially complete the work within the time specified in this Contract, or within such extra time as may be allowed, Contractor (or surety) shall be liable to the City in the amount of \$500 per day for each and every calendar day that the performance of this Contract remains uncompleted after the time allowed for substantial completion, as liquidated damages, and not as a penalty, it being stipulated that actual damages to the City and the public arising from Contractor's failure to timely complete the work would be difficult, if not impossible, to ascertain. The amount assessed as liquidated damages may be withheld from any funds otherwise due to Contractor from the City. The Services are not considered complete until final acceptance by the City.
- **4. Exchange of Data and Cooperation.** All information, data, and reports in the City's possession and necessary for the carrying out of the Services, shall be furnished to the Contractor without charge, and the parties shall reasonably cooperate with each other in every possible way in the carrying out of the Services.
- **5. Personnel.** The Contractor represents that Contractor shall secure at Contractor's own expense all personnel required to perform the Services. Such personnel shall not be considered employees of the City. All the Services required hereunder shall be performed by the Contractor or under Contractor's direct supervision and all personnel engaged in the work shall be fully qualified and shall be authorized under state and local law to perform such Services. None of the Services covered by this contract shall be subcontracted without the prior written approval of the City.
- **6. Term.** This Contract shall commence upon its full execution by the Parties and shall continue until the completion and acceptance by the City of the Services, unless sooner terminated pursuant to Paragraph 7.

7. Termination.

- **7.1. Termination for breach.** Failure of Contractor to fulfill Contractor's obligations under this Contract in a timely and satisfactory manner in accordance with the terms of this Contract shall constitute a breach of the Contract, and the City shall thereupon have the right to immediately terminate the Contract. The City shall give written notice of termination to the Contractor. In the event of any litigation arising from breach of this Contract, the City shall be entitled to recover from the Contractor all reasonable costs incurred for such litigation, including staff time, court costs, attorney fees, and all other related expenses incurred in such litigation.
- **7.2. Termination for Convenience.** The City shall have the right at any time upon 90 days written notice to the other to terminate and cancel this Contract, without cause, for convenience. In such event final payment to the Contractor shall be limited to services provided by the Contractor as of the effective date of said termination.

- **7.3. Non-appropriation.** This Contract shall be terminated upon the failure of the City Council of City to appropriate funds for this Contract in any term of said Contract.
- **8. City's Right to Proceed.** In the event this Contract is terminated, the City may take over the work and prosecute the same to completion, by contract or otherwise, and Contractor and its sureties shall be liable to the City for any costs over the amount of this Contract thereby occasioned by the City. In any such case, the City may take possession of, and utilize in completing the work, such materials, appliances and structures as may be on the work site and are necessary for completion of the work. The foregoing provisions are in addition to, and not in limitation of, the rights of the City under any other provisions of the contract, city ordinances, and state and federal laws.
- **9. Confidentiality.** Any reports, data, or similar information given to, prepared or assembled by the Contractor under this Contract shall be considered the property of the City and shall not be made available to any individual or organization by the Contractor without prior written approval of the City. The provisions of this Paragraph shall survive the termination or expiration of this Contract.
- **10. Conflict of Interest.** Contractor certifies that no member or officer of its firm or organization is an officer or employee of the City of Nixa, Missouri, or any of its boards or agencies, and further that no officer or employee of the City has any financial interest in this Contract which would violate any applicable federal regulations or the provisions of RSMo. Section 105.450 et seq or the provisions of Nixa City Charter Section 13.1.
- 11. Assignment. Neither party may assign, transfer, or delegate any or all of its rights or obligations under this Contract, including by operation of law, change of control, or merger, without the prior written consent of the other party. No assignment shall relieve the assigning party of any of its obligations hereunder. Any attempted assignment, transfer, or other conveyance in violation of the foregoing shall be null and void. This Contract shall be binding upon and shall inure to the benefit of the parties hereto and their respective successors and permitted assigns.
- **12. Nondiscrimination.** The Contractor agrees in the performance of this contract not to discriminate on the ground or because of race, creed, color, national origin or ancestry, sex, religion, handicap, age, status as a protected veteran or status as a qualified individual with a disability, or political opinion or affiliation, against any employee of Contractor or applicant for employment and shall include a similar provision in all subcontracts let or awarded hereunder. The parties hereby incorporate the requirements of 41 C.F.R. §§ 60-1.4(a)(7), 29 C.F.R. Part 471, Appendix A to Subpart A, 41 C.F.R. § 60-300.5(a) and 41 C.F.R. § 60-741.5(a), if applicable.
 - **12.1.** This Contractor and subcontractor shall abide by the requirements of 41 C.F.R. § 60-300.5(a). This regulation prohibits discrimination against qualified protected veterans and requires affirmative action by covered prime contractors and subcontractors to employ and advance in employment qualified protected veterans.
 - **12.2.** This Contractor and subcontractor shall abide by the requirements of 41 C.F.R. § 60-741.5(a). This regulation prohibits discrimination against qualified individuals on the basis of disability and requires affirmative action by covered prime contractors and subcontractors to employ and advance in employment qualified individuals with disabilities.
- **13. Occupational License.** The Contractor shall obtain and maintain an occupational license or business registration with the City of Nixa, Missouri, if required by city code and any required state or federal requirement. The cost for this occupational license shall be borne by the Contractor.

14. Insurance Requirements.

 - **14.1.1. Commercial General Liability Insurance** with limits no less than \$517,306.00 per occurrence and \$3,448,710.00 in the aggregate, including bodily injury and property damage, which policy shall include contractual liability coverage insuring the activities of Contractor under this Contract;

- **14.2.** All insurance policies required pursuant to Paragraph 14 shall:
 - **14.2.1.** Be issued by insurance companies reasonably accepted by the City, able to transact business within the State of Missouri, and with an A.M. Best Rating of no less than a B+ Rating;
 - **14.2.2.** Provide that such insurance carriers give the City at least 30 days' prior written notice of cancellation or non-renewal of policy coverage; provided that, prior to such cancellation, the Contractor shall have new insurance policies in place that meet the requirements of this Paragraph 14;
 - **14.2.3.** Waive any right of subrogation of the insurers against the City or any of its officials, employees, or agents;
 - **14.2.4.** Provide that such insurance be primary insurance and any similar insurance in the name of and/or for the benefit of the City shall be excess and non-contributory;

- **14.5.** This Paragraph 14 shall not be construed in any manner as waiving, restricting, or limiting the liability of the Contractor for any obligations imposed under this Contract (including but not limited to, any provisions requiring a party hereto to indemnify, defend, and hold harmless under this Contract).
- **14.6. Subcontracts.** In case any or all the performance of this Contract is sublet, the Contractor shall require the subcontractor to procure and maintain all insurance required in this Paragraph 14. Contractor shall provide evidence of such insurance from said subcontractor.
- 14.7. Changes in policy limits. In the event the scope or extent of the City's tort liability as a governmental entity as described in Section 537.600 through 537.650 RSMo. is broadened or increased during the term of this Contract by legislative or judicial action or in the event that the Sovereign Immunity limits for a given calendar year, as published annually on the Missouri Register by the Missouri Department of Insurance are increased during the term of this Contract, the City may require Contractor, upon 10 days written notice, to execute a contract addendum whereby the Contractor agrees to provide, at a price not exceeding Contractor's actual increased premium cost, additional liability insurance coverage as the City may require to protect the City from increased exposure as the result of increase. Any such additional insurance coverage shall be evidenced by an appropriate Certificate of Insurance and shall take effect within the time set forth in the addendum.
- **14.8. Survival.** The provisions of this Paragraph shall survive the termination or expiration of this Contract.
- 15. Contractor's responsibility for subcontractors. The Contractor shall be fully responsible to the City for the acts and omissions of its subcontractors, and of persons either directly or indirectly employed by them, as Contractor is for the acts and omissions of persons it directly employs. Contractor shall cause appropriate provisions to be inserted in all subcontracts relating to this Contract, to bind all subcontractors to Contractor by all the terms herein set forth, and insofar as applicable to the work of subcontractors and to give Contractor the same power regarding termination of any subcontract as the City may exercise over Contractor under any provisions of this contract. Nothing contained in this contract shall create any contractual relation between the subcontractor and the City.
- 16. Independent Contractor Clause. This Contract does not create an employee/employer relationship between the parties. It is the parties' intention that the Contractor shall be an independent contractor and not the City's employee for all purposes, including, but not limited to, the application of the Fair Labor Standards Act, minimum wage and overtime payments, Federal Insurance Contribution Act, the Social Security Act, the Federal Unemployment Tax Act, the provisions of the Internal Revenue Code, Missouri revenue and taxation laws, Missouri workers' compensation, and unemployment insurance laws. The Contractor shall retain sole and absolute discretion as to the judgment and manner and means of carrying out the Contractor's activities and responsibilities hereunder. The Contractor agrees that it is a separate and independent enterprise from the public employer, that it has a full opportunity to find other business, that it has made its own investment in its business, and that it will utilize a high level of skill necessary to perform the work. This Contract shall not be construed as creating any joint employment relationship between the Contractor and the City, and the City shall not be liable for any obligation incurred by the Contractor, including but not limited to unpaid minimum wages and/or overtime premiums.

17. Liability and Indemnity.

- **17.1.** In no event shall the City be liable to the Contractor for special, indirect, or consequential damages, except those caused by the City's gross negligence or willful or wanton misconduct arising out of or in any way connected with a breach of this contract. The maximum liability of the City shall be limited to the amount of money to be paid or received by the Contractor under this contract.
- 17.2. The Contractor shall defend, indemnify and save harmless the City, its elected or appointed officials, agents and employees from and against any and all liability, suits, damages, costs (including attorney fees), losses, outlays and expenses from claims in any manner caused by, or allegedly caused by, or arising out of, or connected with, this contract, or the work or any subcontract thereunder (the Contractor hereby assuming full responsibility for relations with subcontractors), including, but not limited to, claims for personal injuries, death, property damage, or for damages from the award of this contract to Contractor, notwithstanding any possible negligence, whether sole or concurrent, on the part of the City, its officials, agents and employees.
- **17.3.** The Contractor shall indemnify and hold the City harmless from all wages or overtime compensation due to any employees in rendering services pursuant to this Contract or any subcontract, including payment of reasonable attorneys' fees and costs in the defense of any claim made under the Fair Labor Standards Act, the Missouri Prevailing Wage Law or any other federal or state law.
- **17.4.** The indemnification obligations of Contractor hereunder shall not be limited by any limitations as to the amount or type of damages, compensation or benefits payable by or for the Contractor, under any federal or state law, to any person asserting the claim against City, its elected or appointed officials, agents, and employees, for which indemnification is sought.
- **17.5.** The indemnification obligations herein shall not negate, abridge or reduce in any way any additional indemnification rights of the City, its elected or appointed officials, agents and employees, which are otherwise available under statute, or in law or equity.
- **17.6.** Contractor affirms that it has had the opportunity to recover the costs of the liability insurance required in this Contract in its contract price. Contractor's obligation under this Contract to defend, indemnify, and hold harmless any person from that person's own negligence or wrongdoing is limited to the coverage and limits of the applicable insurance required of the Contractor under this Contract.
- **17.7.** The Contractor shall indemnify and hold the City harmless for any penalties, fines, fees or costs, including costs of defense, which are charged or assessed by any federal, state or local agency including, but not limited to, Environmental Protection Agency or Department of Natural Resources.
- **17.8.** The provisions of this Paragraph shall survive the termination or expiration of this Contract.

TEMPORARY & PERMANENT VEGETATION REQUIREMENTS

TOPSOIL REQUIREMENTS:

PULVERIZED, LOOSE, AND UNIFORM.

PERMANENT AND TEMPORARY SEEDING LOOSEN COMPACTED SOILS TO A DEPTH OF 4 INCHES. IF RAINFALL CAUSES THE SURFACE TO BECOME SEALED OR CRUSTED, LOOSEN IT JUST PRIOR TO SEEDING. SLOPES STEEPER THAN 33 PERCENT (3:1) GRADE SHOULD BE GROOVED OR FURROWED ON THE CONTOUR BEFORE SEEDING. A GOOD SEEDBED IS WELL

PERMANENT SEEDING -A MINIMUM OF 4 INCHES OF LOOSE TOPSOIL SHOULD BE SPREAD ON AREAS TO BE

LIME REQUIREMENTS:

PERMANENT AND TEMPORARY SEEDING LIME SHOULD BE APPLIED ACCORDING TO SOIL TEST RECOMMENDATIONS. IF THE PH OF THE SOIL IS UNKNOWN, LIME SHALL BE INCORPORATED INTO THE TOP 4 INCHES OF SOIL AT THE RATE OF 1500 POUNDS EFFECTIVE NEUTRALIZING MATERIAL (ENM)

PER ACRE. SOILS WITH A PH OF SIX OR HIGHER NEED NOT BE LIMED. FERTILIZER REQUIREMENTS

PERMANENT SEEDING -

FERTILIZER SHOULD BE APPLIED BASED ON SOIL TESTS. WHEN THESE ARE NOT POSSIBLE, A 13-13-13 GRADE FERTILIZER SHALL BE INCORPORATED INTO THE TOP 4 INCHES OF SOIL AT THE RATE OF 500 POUNDS PER ACRE.

TEMPORARY SEEDING -FERTILIZER SHOULD BE APPLIED BASED ON SOIL TESTS. WHEN THESE ARE NOT POSSIBLE, A 10-10-10 GRADE FERTILIZER SHALL BE INCORPORATED INTO THE TOP 4 INCHES OF SOIL AT THE RATE OF 200 POUNDS PER ACRE.

SEED REQUIREMENTS

PERMANENT SEEDING -

SEED MIX SHALL CONSIST OF NINETY PERCENT (90%) TALL FESCUE AND TEN PERCENT (10%) ANNUAL RYEGRASS. SEED MIXTURE SHALL BE APPLIED AT A RATE OF

TEMPORARY SEEDING - SEED MIX SHALL CONSIST OF ANY COMBINATION OF TALL FESCUE, ANNUAL RYEGRASS, SUDAN, MILLET, WHEAT, OR OATS. SEED MIXTURE SHALL BE APPLIED AT A RATE OF 200 POUNDS PER ACRE.

DORMANT SEASON SEEDING - SEED MIX SHALL CONSIST OF 80 PERCENT (80%) TALL FESCUE, TEN PERCENT (10%) ANNUAL RYEGRASS, AND TEN PERCENT (10%) SPRING OATS. SEED MIXTURE SHALL BE APPLIED AT A RATE OF 600 POUNDS PER ACRE.

MULCH REQUIREMENTS:

PERMANENT AND TEMPORARY SEEDING -WHERE SLOPES ARE LESS THAN 25 PERCENT (4:1) GRADE, CEREAL GRAIN MULCH IS REQUIRED AT THE RATE OF 100 POUNDS PER 1,000 SQUARE FEET (4,500 LBS/ACRE). CEREAL GRAIN MULCH SHALL MEET THE REQUIREMENTS OF SECTION 802 OF THE MISSOURI STATE SPECIFICATIONS FOR HIGHWAY CONSTRUCTION FOR TYPE 1 MULCH. WHERE SLOPES ARE 25 PERCENT (4:1) OR GREATER GRADE, TYPE 3 MULCH ("HYDROMULCH") MEETING THE REQUIREMENTS OF SECTION 802 OF THE STATE SPECIFICATIONS SHALL BE USED. TYPE 3 MULCH SHALL BE APPLIED AT A MINIMUM RATE OF 2,000 LBS/ACRE.

DATES FOR SEEDING:

PERMANENT SEEDING - MARCH 1 TO JUNE 1 AND AUGUST 15 TO NOVEMBER 1 TEMPORARY SEEDING - CAN OCCUR DURING ANY SEASON, HOWEVER WINTER IS THE LEAST TOLERANT. DORMANT SEASON SEEDING - DECEMBER 15 TO FEBRUARY 29

A minimum of 75 percent of all required trees shall be shade trees. Immediately upon planting, trees shall be a minimum of eight feet tall and shall have a minimum caliper (widest point of trunk) of two inches. A minimum number of 3 tree species is required. Every development shall retain all existing trees 18 inches in diameter or more unless the retention of such trees would unreasonably burden the development.

Sight Triangle:

(1) At the intersection of two streets, or where a street intersects with an alley: a triangle defined by measuring 30 feet in length along each curb or edge of roadway from the point of intersection, the third side being a diagonal line connecting the first two. The city may require a greater distance in certain higher volume or higher speed traffic intersections. (2) At the intersection of a driveway and street: two sides of the triangle defined by measuring 15 feet in length along the edge of the driveway and along the curb or edge of roadway line from the

point of intersection, the third side being a diagonal line connecting the first two.

SOD NOTES:

- UNLESS OTHERWISE NOTED ON PLANS, ALL DISTURBED AREAS SHALL BE SODDED WITH
- TURF-TYPE TALL FESCUE SOD WITH A MINIMUM OF 3 CULTIVARS. ALL LAWN AREAS SHALL RECEIVE A MINIMUM 6-INCH DEPTH OF TOPSOIL COMPACTED TO 85% MAXIMUM DENSITY AT OPTIMUM MOISTURE CONTENT.
- THE ENTIRE SURFACE TO BE SODDED SHALL BE REASONABLY SMOOTH AND FREE FROM STONES, ROOTS, OR OTHER DEBRIS.
- SOD SHALL BE MACHINE STRIPPED AT A UNIFORM SOIL THICKNESS OF APPROXIMATELY 1-1/4 INCH (PLUS OR MINUS 1/4-INCH). THE MEASUREMENT FOR THICKNESS SHALL EXCLUDE TOP GROWTH AND THATCH, AND SHALL BE DETERMINED AT THE TIME OF CUTTING IN THE FIELD. PRECAUTIONS SHALL BE TAKEN TO PREVENT DRYING AND HEATING. SOD DAMAGED BY HEAT AND DRY CONDITIONS, AND SOD CUT MORE THAN 18 HOURS BEFORE BEING INCORPORATED INTO THE WORK SHALL NOT BE USED.
- HANDLING OF SOD SHALL BE DONE IN A MANNER THAT WILL PREVENT TEARING, BREAKING, DRYING AND OTHER DAMAGE. PROTECT EXPOSED ROOTS FROM DEHYDRATION. DO NOT

SPECIAL CONDITIONS, REQUIREMENTS AND NOTES TO OWNER, DEVELOPER

CONTRACTOR, BUILDER AND SUBCONTRACTORS INVOLVED IN ANY FORM OF CONSTRUCTION USING THESE DOCUMENTS SHALL BE INFORMED OF THE FOLLOWING RESPONSIBILITIES, PERFORMANCE CRITERIA, LIMITATIONS AND RISKS ASSOCIATED WITH CONSTRUCTION. IF THE OWNER, DEVELOPER OR CONTRACTOR IS NOT ABLE TO ACCEPT THE RESPONSIBILITIES OR PERFORMANCE 2. CONCRETE MIXES SHALL BE DESIGNED BY A CERTIFIED LABORATORY AND APPROVED BY THE ENGINEER. MIX DESIGNS FOR CRITERIA AND LIMITATIONS, NOTIFY OUR OFFICE PRIOR TO START OF CONSTRUCTION. IT SHALL BE EXPRESSLY UNDERSTOOD THAT POST-TENSIONED CONCRETE SHALL BE PROPORTIONED SO AS TO MINIMIZE SHRINKAGE CRACKING. THE ENGINEER IS NOT RESPONSIBLE OR LIABLE FOR THE LACK OF PERFORMANCE OF MATERIALS, SYSTEMS OR DESIGNS NOT BEING LIMITED TO ITEMS OUTLINED BELOW. CONTRACTORS AND SUBCONTRACTORS SHALL THOROUGHLY REVIEW ALL CONDITIONS AND RESPONSIBILITIES STATED IN THESE NOTES, PLANS, SECTIONS AND DETAILS, AND SHALL NOTIFY THE ENGINEER AND OWNER IN WRITING PRIOR TO CONSTRUCTION OF ANY CONDITIONS OR RESPONSIBILITIES WHICH ARE NOT ACCEPTABLE OR NOT UNDERSTOOD. 4. MAXIMUM SLUMP FOR EXTERIOR SLABS SHALL BE 4 INCHES +/-1 INCH. MAXIMUM SLUMP FOR ALL OTHER CONCRETE SHALL BE 3

1. PLAIN CONCRETE, REINFORCED CONCRETE, OR CONCRETE MASONRY DEVELOPS CRACKS. THE CRACKS ARE DUE TO INHERENT SHRINKAGE, CREEP AND RESTRAINING EFFECTS. CRACKS ARE NORMALLY COSMETIC AND THE SYSTEM MAINTAINS SERVICEABILITY AND STRENGTH REQUIREMENTS. JOINTS MAY BE INDICATED TO CONTROL CRACKING, BUT ARE NOT MEANT TO ELIMINATE ALL CRACKING, AS THIS IS NOT PRACTICAL. THE CONTRACTOR SHALL USE ALL STANDARD MEANS TO INSURE PROPER PROTECTION AND CURING OF ALL CEMENTITIOUS MATERIALS TO REDUCE CRACKING, SURFACE SPALLING OR EXTREME CRACKING MAY BE CAUSED BY POOR MATERIAL OR PLACEMENT. CONTACT OUR OFFICE FOR POSSIBLE REPAIR REQUIREMENTS.

2. FOUNDATION SETTLEMENT MAY CAUSE DISTORTION AND DISTRESS TO THE SUPPORTED STRUCTURE AS WELL AS ADJACENT UTILITIES, SLABS OR FOUNDATIONS. THE SOIL REPORT MAY INDICATE A LEVEL OF DISPLACEMENT. ATTENTION TO PROPER SOIL PREPARATION AND GRADING, AS WELL AS PROPER DRAINAGE AWAY FROM STRUCTURE IS ESSENTIAL IN REDUCING EXPECTED SETTLEMENT.

3. VARIATION IN DIMENSIONS MAY OCCUR AS A RESULT OF THERMAL INFLUENCES, NATURAL DEFLECTIONS AND/OR CAMBERS OF MEMBERS. AS A RESULT, QUANTITIES MAY VARY AND ARCHITECTURAL FINISHES MAY BE AT RISK OF COSMETIC VARIATION OR DAMAGE.

4. THE ENGINEER SHALL NOT BE RESPONSIBLE FOR VARIATIONS TO PLANS BETWEEN BID PROCESS AND FINALIZED APPROVED DOCUMENTS RELEASED FOR CONSTRUCTION UNLESS SUCH VARIATIONS ARE ISSUED BY THE ENGINEER. ADDITIONS AND ALTERATIONS MAY BE MADE BETWEEN RELEASE OF BID DOCUMENTS AND FINALIZED CONSTRUCTION DOCUMENTS.

5. THESE DRAWINGS HAVE BEEN PREPARED USING STANDARDS OF PROFESSIONAL CARE AND COMPLETENESS NORMALLY EXERCISED UNDER SIMILAR CIRCUMSTANCES BY REPUTABLE STRUCTURAL ENGINEERS IN THIS OR SIMILAR LOCALITIES. THEY NECESSARILY ASSUME THAT THE WORK DEPICTED WILL BE PERFORMED BY AN EXPERIENCED CONTRACTOR, SUBCONTRACTOR AND/OR WORKPERSONS WHO HAVE A WORKING KNOWLEDGE OF THE APPLICABLE CODE STANDARDS AND REQUIREMENTS AND OF INDUSTRY ACCEPTED STANDARD GOOD PRACTICE. AS NOT EVERY CONDITION OR ELEMENT IS (OR CAN BE) EXPLICITLY SHOWN ON THESE DRAWINGS. IT IS UNDERSTOOD THAT THE CONTRACTOR WILL USE INDUSTRY ACCEPTED STANDARD GOOD PRACTICE FOR ALL WORK EXPLICITLY SHOWN.

6. CALCULATION AND DESIGN OF MISCELLANEOUS NON-STRUCTURAL ITEMS, SUCH AS RAILINGS, NON-STRUCTURAL WALLS AND PREFABRICATED STRUCTURAL ITEMS, SUCH AS FLOOR AND ROOF TRUSSES, ARE NOT INCLUDED AND ARE TO BE PROVIDED BY OTHERS UNLESS SPECIFICALLY NOTED ON THESE DRAWINGS.

7. THESE DRAWINGS REPRESENT THE FINISHED STRUCTURE. THEY DO NOT INDICATE THE METHOD OF CONSTRUCTION. THE CONTRACTOR SHALL BE SOLELY RESPONSIBLE FOR CONSTRUCTION MEANS, METHODS, TECHNIQUES, SEQUENCES AND PROCEDURES. IT SHALL BE THE CONTRACTORS RESPONSIBILITY TO DESIGN AND PROVIDE ADEQUATE, SHORING, BRACING, FORMWORK, ETC. AS REQUIRED FOR THE PROTECTION OF LIFE AND PROPERTY DURING CONSTRUCTION.
