Office: 417-725-3785

June 2, 2025,

To the Honorable Mayor, Members of the City Council and Citizens of the City of Nixa, Missouri:

State law requires that every general-purpose local government publish, within six months of the close of each fiscal year, a complete set of audited financial statements. This report is published to fulfill that requirement for the fiscal year ended December 31, 2024.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal controls that it has established for this purpose. Because the cost of internal controls should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Decker & Pace, LLC, Certified Public Accountants, have issued an unmodified opinion on the City of Nixa, Missouri's financial statements for the year ended December 31, 2024. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. Our MD&A complements this letter of transmittal and should be read in conjunction with it.

CITY OF NIXA, MISSOURI

Nixa, located in the southwestern part of Missouri, is six miles south of Springfield and 30 miles north of Branson on Highway 60, just four miles west of U.S. Highway 65. As one of the fastest growing cities in Missouri, Nixa increased 367% from a population of 4,076 in 1990 to a population of 19,022 in 2010. Current population of Nixa is estimated at 26,352.

Nixa, Missouri has consistently been named in the top 20 safest cities in Missouri, being among the top 10 for the last four out of five years.

The City of Nixa provides a full range of services, including police protection, street maintenance, parks and recreational facilities, planning and zoning

development, and general administrative services. Nixa is also a full-utility-service City, providing all electrical distribution, delivery of water, sanitary sewer treatment and recycling services. The City's Electric Distribution Utility purchases electric capacity and energy from Evergy Kansas Central, Nextera Energy Marketing, Southwestern Power Administration, and Nixa Solar. Energy transmission is provided by Southwest Power Pool. The City began purchases of solar power in 2017 for approximately 9% of Nixa's total annual energy consumption. In 2017, Nixa Utilities was recognized by the Smart Electric Power Alliance as one the top ten utilities around the nation that added the most solar watts per customer in 2017 and has been recognized every three years by the American Public Power Association as a Reliable Public Power Provider since 2014. Use of solar has reduced the City's carbon footprint by 10,542 metric tons per year. Coupled with federal hydropower purchases and wind power from Nextera Energy Marketing, Nixa's total renewable energy supply is approximately 54%. All of Nixa's water is pumped from the Ozark aquifer from nine strategically placed deep wells. In addition, Nixa's above ground storage has capacity for four days of normal use. Its state of the art, 4-million gallon/day sanitary sewer treatment facility accommodates all existing and near-term growth demands.

Contractually, the City accommodates curb-side trash and recycling pick-up for residents, as well as, having a public facility for all reusable product drop-offs.

PROFILE OF THE GOVERNMENT

Incorporated as a village in 1902, Nixa became a fourth-class city under Missouri law on June 7, 1946. In April 2010, Nixa citizens voted to become a Home Rule Charter city. The City Charter provides for a non-partisan municipal government consisting of a Mayor and six council members. The Mayor is elected at large by the voters of the city every three years. The City is divided into three districts with two council members elected from each district for a three-year term.

Appointments of City Administrator, City Clerk, City Attorney and Chief of Police are made by the Mayor and Council. Terms for each of these positions are indefinite.

The City Administrator is the chief administrative officer of the City and is responsible to the Mayor and Council for the administration of all City affairs. The City Administrator is also responsible for the appointment of departmental directors and employees. In addition to the City Administrator, City Clerk, City Attorney and Chief of Police, the City employs six other directors – Director of Planning and Development, Director of Public Works, Director of Finance, Director of Parks and Recreation, Director of Human Resources and Director of Communications as well as an Assistant City Administrator. A total of 171 full-time positions were budgeted for 2024.

LOCAL ECONOMY

In 2024, the City of Nixa issued 171 single-family building permits along with 6 multi-family building permits. In total, the city will be adding 196 new dwelling units to its housing stock. There are also 534 single-family lots that have had preliminary plats issued and

ready to be developed along with 146 single-family lots currently being developed. These will be ready for new home construction in the near future. There were 78 single-family lots available for new home construction at the start of 2025.

City sales and use taxes experienced increases over the previous year. An additional ¾-cent general sales tax for public safety was passed by the voters in April of 2023. The City began receiving this revenue in October of 2023. After a full year of collections in 2024, \$2,767,412.75 in revenue was generated from this new tax. The 1-cent general and ½-cent transportation Sales taxes saw a slight increase of 0.08% over 2023, and since the use tax was passed in 2018, the city continues to see growth in use tax revenue as reflected in an increase of 49%. The additional sales tax and increases resulted in an additional \$2,934,925 in sales and use tax revenue over 2023.

ECONOMIC DEVELOPMENT

The City invests in and supports the Christian County Business Development Corporation (CCBDC). This organization operates as a regional economic development organization which exists to assist businesses in Nixa, and throughout Christian County, with their retention and expansion needs. The organization also helps start-up businesses and promotes the communities of Christian County to potential developers. The City also invests and supports the Nixa Chamber of Commerce. The Chamber of Commerce's mission is to focus on economic and business development. They do this through their core values: attract, connect, grow and engage. The City has an Assistant City Administrator who is also designated as a business concierge. This position is instrumental in assisting current and future businesses with a variety of needs.

MAJOR INITIATIVES

During Fiscal Year 2024, the City of Nixa completed the following major initiatives:

- New shooting range and building for the Police Department
- Updates to the pool
- A trail extension at McCauley Park
- Northview Road extension
- A roundabout expansion
- A new SCADA system for the water department
- New clarifier lining at the wastewater treatment facility
- An updated 20 year comprehensive plan

Many major items, budgeted in 2024, have been carried forward into the 2025 budget for completion:

- LeAnn to Nicholas tie line (electric)
- AMI meter replacement for electric and water
- City Hall remodel
- New Police Department building
- A new splash pad
- Main St. and Tracker to CC highway improvements

- A new water tower
- SCADA system for the wastewater department
- A new sludge truck
- Southwest regional lift station

FINANCIAL INFORMATION

In developing the City's accounting system, consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable assurance, but not absolute, that assets are effectively safeguarded, and transactions are performed in accordance with management's authorization and are properly recorded. The concept of reasonable assurance recognizes the cost of a control should not exceed the benefits likely to be derived and the evaluation of cost and benefits requires estimates and judgments by management. Within this framework, we believe that the City's system of internal accounting controls adequately safeguards assets and provides reasonable assurance of proper recording of financial transactions.

Internal Budgeting Controls

All funds are budgeted on an annual basis. Budgets provide a management control tool for financial planning and measurement of operational expenditure levels. Budgeting of the enterprise activity is necessary to ensure the level of user rates is sufficient to cover operational costs as well as meet bondholder requirements for debt coverage.

The City Charter specifies that the City Administrator shall submit to the Mayor and Council a budget for the ensuing fiscal year. A five-year capital program shall also be submitted prior to the final date for submission of the budget. The Council, by ordinance, adopts the budget on or before the last day of the month of the fiscal year currently ending. Adoption of the budget shall constitute appropriations of the amounts specified therein as expenditures from the funds indicated. During the fiscal year, supplemental appropriations and/or reduction of appropriations may be brought to the Council by the City Administrator for amendment of the adopted budget. In no event shall the total proposed expenditures exceed the estimated revenues to be received plus any unencumbered cash reserves.

Relevant Financial Policies

Several tools and policies have been developed and implemented by the City to ensure protection of the City's assets and to provide internal controls. In 2020, the Finance Department's Standard Operating Procedures manual was updated; the previous version had been in effect since 2015. The City's comprehensive Purchasing Policy and Investment Policy was updated and approved by Council in 2023. A Debt

Management Policy was also introduced by staff in 2019 and approved by Council. Other adopted financial policies include an Identity Theft Prevention Program, Merchant Card Policy, Grant Policy, Fixed Asset Policy, Purchasing Card Policy and Utility Billing Collection Policy.

The City of Nixa continually monitors user rates for the enterprise funds. Rate studies are conducted on a regular basis to ensure that revenues meet the needs of operations, debt, and capital improvements. User rates implement incremental increases to adjust to rising costs.

Cash Management

The City's investment policy establishes guidelines and requirements for the investment of all City revenues funds. The City's policy strives to earn the highest rate of return on invested funds without sacrificing either safety or liquidity. All deposits are secured by the Federal Deposit Insurance Cooperation and pledged securities. The securities pledged satisfy the requirements established under current state and federal laws. Proposals for comprehensive day-to-day depository and banking services are requested every three to five years from area banking institutions. The City requested and received such proposals in 2021. Investment of funds in long-term vehicles (six months or greater) are placed by competitive bids.

Long-term Financial Planning

The City of Nixa utilizes a five-year capital improvement program to identify and prioritize public projects. In accordance with our City Charter, the City Administrator is responsible for preparation of this program prior to the final date of submission of the annual budget. The capital program is adopted by resolution on or before the last day of the month of the current fiscal year.

To aid the various departments in the capital improvement program, initiatives are identified through the use of master plans. These plans, particularly electric, water and wastewater, are reviewed every three (3) to five (5) years, depending on the City achieving projected estimates (e.g. growth rates, market trends, infrastructure integrity and revenue). The City of Nixa's 2021 budget included monies to provide an electric system study. Based on the results of that study, new electric rates were adopted at the beginning of 2022. A water rate study was conducted in 2023 with proposed rates adopted through 2028. A sewer system study was conducted in 2019; a rate structure for 2020 – 2026 identified in this study was adopted by Council. The City reviewed its power purchasing contracts and rates to assess the current needs for providing electric energy to the community. As a result of that review, better alternatives were found to meet power needs while saving money. A Street master plan was presented to Council in January 2016. A survey conducted during the Street master plan process continues to assist Council in the prioritization of transportation and connectivity issues. A Parks Master Plan was completed and adopted in 2020.

Debt Administration

The City of Nixa had an outstanding debt balance of \$4,158,664 on December 31, 2024 compared to a balance of \$4,622,249 as of December 31, 2023. Of this balance, \$0 is general obligation debt; the City made its final payment of \$165,300 of general obligation debt in 2021. In compliance with Missouri Statutes, the City's general obligation debt issuance is subject to legal limitation based on 20% of total assessed value of real and personal property.

The remainder of the debt balance is comprised as follows: in the proprietary funds - special obligation bonds, \$2,540,000; revenue bonds, \$55,000; and lease obligations, \$181,945. In the governmental funds –lease obligations, \$1,381,719.

OTHER INFORMATION

Strategic Planning

In 2020, the City of Nixa developed and adopted a new 5-year strategic plan. In order to enable anyone in the community to participate in this process, the city launched ImagineNixa.com. This website explained the vision and values set by council and provided everyone an opportunity to help the City brainstorm ideas for how to best accomplish the vision. The website was open to public comment from February through June and then staff reviewed and considered every single idea submitted. The City then invited 15 Nixa residents who represented a diverse cross section of the community to participate in a strategic planning advisory committee. This committee was charged with processing the ideas that were received through Imagine Nixa and with drafting a strategic plan, taking into consideration both the public's input and the expertise of staff. The advisory committee submitted their recommendations to council, who adopted the document as the City of Nixa's Strategic Plan on Nov. 23, 2020. The City has implemented many of the action plans identified in the plan, and communication back to the community has already begun as progress is made on the priorities outlined in the plan. The strategic plan is also the major driver behind the budgetary process. The City will update the strategic plan in 2025.

Independent Audit

As specified by the City's Charter, an independent audit of all City accounts is performed at least once a year in accordance with generally accepted accounting standards by a certified public accountant or firm of such accountants who have no personal interest, direct or indirect, in the fiscal affairs of the City government or any of its officers.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Nixa for its annual comprehensive financial report for the fiscal year ended December 31, 2023. This was the ninth consecutive year that the City has achieved this prestigious award. In order to be awarded a Certificate of Achievement, the government had to publish an easily readable and efficiently organized report that satisfied both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. However, we believe our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

We would like to recognize the Mayor and Council for their high standards of professionalism in the management of the City's resources. Our appreciation is extended to the Finance Department in their diligence to maintain a reliable reporting system, and to other City departments in providing data for this report. In addition, we would like to thank our auditors, Decker and Pace, LLC for their assistance in formulating this report.

Respectfully submitted,

Jimmy Liles | City Administrator

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and Members of City Council City of Nixa, Missouri

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund, of the City of Nixa, Missouri, as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise the City of Nixa, Missouri's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund, of the City of Nixa, Missouri, as of December 31, 2024, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City of Nixa, Missouri and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Nixa, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether
 due to fraud or error, and design and perform audit procedures responsive to those risks.
 Such procedures include examining, on a test basis, evidence regarding the amounts and
 disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City of Nixa, Missouri's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Nixa, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of changes in net pension liability and related ratios, and schedule of pension plan contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required

supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Nixa, Missouri's basic financial statements. The schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, is presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 6, 2025, on our consideration of the City of Nixa, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Nixa, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Nixa, Missouri's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of Nixa, Missouri, we offer readers of the City of Nixa's financial statements this narrative overview and analysis of the financial activities of the City of Nixa for the fiscal year ended December 31, 2024. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on page i of this report.

Financial Highlights

- The assets and deferred outflows of resources of the City of Nixa exceeded its liabilities at the close of the most recent fiscal year by \$ 154,020,631 (net position). Of this amount, \$51,974,327 represents unrestricted net position, which may be used to meet the government's ongoing obligations to citizens and creditors.
- As of December 31, 2024, governmental activities and business-type activities had net positions of \$74,880,387 and \$79,140,244, respectively.
- At the end of the current fiscal year, the City of Nixa's governmental funds reported combined ending fund balances of \$ 15,769,453 an increase of \$ 823,173 in comparison with the prior year. Approximately 78.41% or \$ 12,364,272 is available for discretionary spending by the City of Nixa. The remaining fund balance is either restricted by outside parties or not in spendable form.
- The unassigned fund balance for the General Fund, \$ 12,364,272, is 99.68% of total General Fund expenditures, and is an increase in comparison with the prior year's unassigned fund balance.
- The City of Nixa's long-term debt obligations decreased by \$ 463,585, or 10.03% as compared to fiscal year 2023.

Overview of the Financial Statements

This discussion and analysis provided here are intended to serve as an introduction to the City of Nixa's basic financial statements. The City of Nixa's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) the notes to the financial statements. This report also includes supplementary information intended to furnish additional detail to support the basic financial statements themselves.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the City of Nixa's finances, in a manner similar to a private-sector business.

The statement of net position presents financial information on all of the City of Nixa's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the

financial position of the City of Nixa is improving or deteriorating.

The statement of activities presents information showing how the City of Nixa's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City of Nixa that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City of Nixa include general government, public safety, transportation, sanitation, culture and recreation. The business-type activities include the Waterworks, Wastewater, and Electric systems.

The government-wide financial statements can be found on pages 15 and 16 of this report.

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Nixa, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Nixa can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in assessing a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City of Nixa maintains two individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement

of revenues, expenditures, and changes in fund balances for the general fund and street fund which are considered to be major funds.

The City of Nixa adopts an annual appropriation budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 17-20 of this report.

Proprietary funds. The City of Nixa maintains three different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City of Nixa uses enterprise funds to account for its Waterworks, Wastewater, and Electric operations.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Waterworks, Wastewater, and Electric funds, which are considered to be major funds of the City of Nixa.

The basic proprietary fund financial statements can be found on pages 21-23 of this report.

Notes to the Financial Statements. The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 24-53 of this report.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information concerning the City of Nixa progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found on pages 54-58 of this report.

Government-Wide Overall Financial Analysis

As noted earlier, net position over time may serve as a useful indicator of a government's financial position. In the case of the City of Nixa, assets and deferred outflows exceeded liabilities and deferred inflows by \$154,020,631 at the close of the most recent fiscal year.

By far, the largest portion of the City of Nixa's net position (64.07%) reflects its investment in capital assets (e.g., land, buildings, machinery, equipment, vehicles, and infrastructure), less any related outstanding debt that was used to acquire those assets. The City of Nixa uses these capital assets to provide a variety of services to its citizens. Accordingly, these assets are not available for future spending. Although the City of Nixa's investment in capital assets is reported net of related debt, it should be noted that the resources used to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City of Nixa's net position (2.18%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$ 51,974,327 is unrestricted and may be used to meet the government's ongoing obligations to its citizens and creditors.

At the end of the current fiscal year, the City of Nixa is able to report positive balances in all reported categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

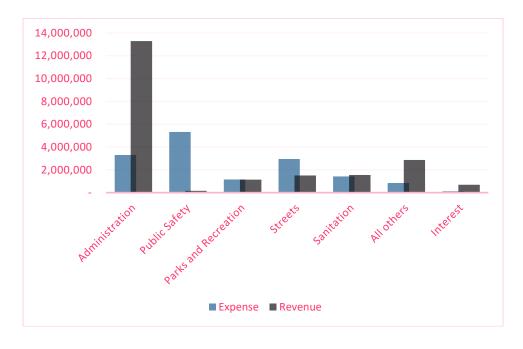

However, the City of Nixa's overall net position increased \$ 10,380,444 from the prior fiscal year. The reasons for this overall increase are discussed in the following sections for governmental activities and business-type activities.

Governmental Activities. Governmental activities increased the City of Nixa's net position by \$6,091,487 thereby accounting for 58.68% of the total increase in the net position of the City of Nixa. Compared to last year's growth for Governmental activities, this was an increase of \$6,539,171. Most of this increase over the prior year can be attributed to a full year of sales tax collections of the newly passed (April 2023) 3/4-cent sales tax for Public Safety.

Expenses and Program Revenues -Governmental Activities

Business-type activities. Business-type activities increased the City of Nixa's net position by \$4,288,957 thereby accounting for 41.32% of the total growth in the net position of the City of Nixa. This was a decrease of \$522,641 over the prior year. Operations that had an impact on this can be attributed to personnel expenditures related to across-the-board wage increases resulting from a salary survey.

Financial Analysis of the City of Nixa's Funds

As noted earlier, the City of Nixa uses fund accounting to demonstrate compliance with legal or finance-related requirements.

Governmental Funds

The focus of the City of Nixa's governmental funds is to provide information on the near-term inflows, outflows, and balances of spendable resources. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

Governmental fund balance is reported in five separate categories: Nonspendable, restricted, committed, assigned, and unassigned. Nonspendable fund balance includes amounts that

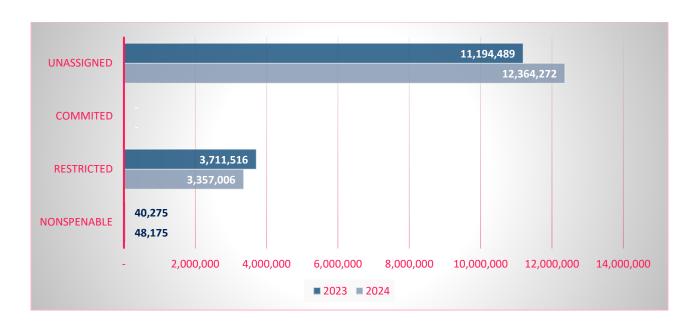

cannot be spent for legal or practical reasons. Examples include prepaid items and inventory. Restricted fund balance includes amounts restricted to specific purposes by external parties such as amounts restricted for specific purposes such as streets and parks.

Restricted fund balance includes amounts that have been set aside by the City of Nixa Council for a specific purpose prior to the end of the fiscal year. Unassigned fund balance includes all remaining amounts.

As of the end of the current fiscal year, the City of Nixa's governmental funds reported a combined ending fund balance of \$ 15,769,453 with an increase of \$ 823,173 compared to the prior fiscal year. Of the total balance, \$ 48,175 is Non-spendable, \$ 3,357,006 is restricted, and \$12,364,272 is unassigned.

The General Fund is the chief operating fund of the City of Nixa. At the end of the current fiscal year, the General Fund reported a fund balance of \$ 12,403,530 of which \$37,035 was nonspendable, \$ 2,223 restricted for stormwater, and \$ 12,364,272 was unassigned.

The fund balance of the General Fund increased \$1,122,569, which was up from the prior year of \$417,700. As compared to the prior year, the General Fund had an increase in sales tax of \$2,937,655 due to a full year of collections of the new \(^3\)4 cent Public Safety sales tax and offset by expenditures due to a wage survey which increased salaries in all departments but overall

showed an improved net increase.

The fund balance of the Street Fund decreased (\$ 299,396), which was a decrease over the prior year of (\$ 5,719) as a result in combination of a decrease in grants for capital improvements and capital improvement expenditures.

Proprietary Funds

The City of Nixa's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position in the City of Nixa's major proprietary funds totaled the following: (1) \$ 6,622,029 in the Waterworks Fund, (2) \$ 7,616,344 in the Wastewater Fund and (3) \$ 25,586,689 in the Electric Fund. The finances of these funds were discussed earlier as part of the business-type activities.

GENERAL FUND BUDGETARY HIGHLIGHTS

A few noteworthy revisions were made to the General Fund original expenditure budget. The original General Fund expenditure budget was forecasted at \$20,890,323 and the revised expenditure budget was increased by \$201,472 or 1% to \$21,091,795. Most all of this increase was to hire 2 additional Police Officers as well as to complete a staff realignment within the Police Department's management structure. Actual expenditures for the General Fund came in 18.54% under the revised expenditure budget for a savings of \$3,299,206.

Additional information on the City of Nixa's long-term debt can be found in Note E and F of the notes to the financial statements of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The 2025 budget for the City of Nixa indicates \$88,366,102 in expenditures, and \$82,551,913 in revenue and other sources of funds. Expenditures are comprised of \$43,021,040 for operations, \$1,573,749 for debt retirement and lease obligations and \$43,771,313 for capital improvement projects. Revenue for 2025 will cover 100% of operational expenses and debt retirement. Current year revenue and other sources of funds will provide for 86.7% of capital improvements; unassigned fund balance will cover remaining 13.2% or \$5,814,189.

General and transportation sales taxes for 2024 rose 39% over the previous year. The voters of the City of Nixa passed an additional %-cent general sales tax to be used for public safety which took effect in October of 2023. This new sales tax generated \$2,767,412.75 in 2024. The consolidated Use Tax continues to see growth reflected in an increase of 49% in 2024 over 2023. The budget for 2025 reflects a 7% increase over projected year end amounts in sales and a 4% increase over 2024 projected amounts for use taxes.

In 2024, the City of Nixa issued 171 single-family building permits along with 6 multi-family building permits. In total, the city will be adding 196 new dwelling units to its housing stock. There are also 534 single-family lots that have been preliminarily plated and ready to be developed along with 146 single-family lots currently being developed. These will be ready for new home construction in the near future. There were 78 single-family lots available for new home construction at the start of 2025.

Capital projects for 2025 are budgeted at \$43,831,313. Of this budget, \$250,000 has been appropriated for land, \$210,000 has been appropriated for Improvements, \$16,044,000 for Buildings, \$2,300,334 has been appropriated for Building Improvements, \$1,511,036 for Vehicles,

\$1,786,500 for Equipment, and \$21,729,443 for Infrastructure. A few noteworthy Projects include: replacement and conversion to AMI Meters in both the Electric and Water Departments; a new substation; a new regional lift station; City Hall remodel; a new water tower; a new Police Department building; improvements to several streets including sidewalk and lighting additions as well as widening; a new splash pad; and storm water improvements, just to name a few.

The City underwent a compensation study in 2023 and restructured many of its pay grades. The results of the study saw the City choosing to bring salaries within the 25th percentile of the market rates as well as including a 3% cost of living adjustment for all positions in 2024. The City's plan over the next few years is to bring salaries to the 50th percentile of the market rates. This commitment resulted in an additional \$2,390,442 to the personnel budget, an increase of 15% over 2024's budget. Along with pay increases, the City added 8 new positions including a Multi-Media Specialist, 2 Electrical Line workers, 4 Police Officers, Administrative Assistant for Human Resources and a Building and Grounds worker in Parks. With the continued increase in revenues from the Public Safety Sales tax, the City plans to evaluate the numbers mid-year and anticipates adding 2 additional Police Officers.

In both Capital planning and program and service offerings, the City continues to strive to serve the Citizens of Nixa by being a high performance government creating a safe community, reliable infrastructure, and sustainable economy with a vibrant atmosphere united by hometown spirit.

CONTACTING THE CITY OF NIXA'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and creditors with a general overview of the City of Nixa's finances and to show the City of Nixa's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Director of Finance's Office at 715 West Mt. Vernon, Nixa, Missouri

RECONCILIATION OF STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED DECEMBER 31, 2024

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds \$823,173

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the net effect on capital asset related transactions when converting to the full accrual basis.

5,368,646

Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the same statement of net position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position

Lease obligations (927,217)
Principal payments 1,130,093

202.876

Under the modified accrual basis of accounting used in the governmental funds, revenues are not recognized until funds are measurable and available to finance current expenditures. In the statement of activities, however, which is presented on the accrual basis, revenues are reported regardless of when financial resources are available. This is the net adjustment to property tax revenue in converting to the full accrual basis.

6,681

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore, are not reported as expenditures in governmental funds.

Compensated absences (25,031)
Change in LAGERS net pension obligation (284,858)

(309,889)

Change in net position of governmental activities

\$ 6,091,487

NOTES TO BASIC FINANCIAL STATEMENTS DECEMBER 31, 2024

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Nixa, Missouri (the "City") was formally established as the Village of Nixa in 1902 and currently covers 8.97 square miles in Christian County, Missouri. The City now operates under the Home Rule Charter form of government. The City Administrator is the chief administrative officer of the City who is responsible for the day-to-day operations of the City. The City provides services to approximately 25,405 residents in many areas, including law enforcement, engineering, streets, electric, waterworks, wastewater, parks and recreation and general administrative services.

The financial statements of the City were prepared in accordance with accounting principles generally accepted in the United States of America for governmental entities (U.S. GAAP). The following summary of the more significant policies of the City is presented to assist the reader in interpreting these financial statements and should be viewed as an integral part of this report.

THE REPORTING ENTITY

Entity status for financial reporting purposes is governed by Governmental Accounting Standards Board (GASB). The GASB is the standard-setting body for the establishment of GAAP in governmental entities. The financial statements of the City present the financial activities of the City and any component units. The City is the primary government unit. Component units are those entities which are financially accountable to the primary government, either because the City appoints a voting majority of the component unit's Board or because the component unit will provide a financial benefit or impose a financial burden on the City. The City does not have any component units.

GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all activities of the City. For the most part, the effect of interfund activity has been removed from these statements. Government-wide financial statements do not provide information by fund but distinguish between the City's governmental activities and business-type activities. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges

NOTES TO BASIC FINANCIAL STATEMENTS DECEMBER 31, 2024

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS - continued

provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

<u>Fund financial statements.</u> Separate financial statements are provided for governmental funds and proprietary funds. Separate columns are presented for each major governmental fund and for each major enterprise fund. Non-major funds are aggregated and presented in a single column labeled "Nonmajor Governmental Funds."

Governmental Fund Types: Governmental funds are those through which most governmental functions of the City are financed. The acquisition, use and balances of the City's expendable financial resources and the related liabilities (other than those in proprietary funds) are accounted for through governmental funds. The following are the City's major governmental funds:

<u>General Fund</u> – The General Fund is the government's primary operating fund. It is used to account for all financial resources except those required to be accounted for in another fund.

<u>Street Fund</u> – This fund is used exclusively for the revenues of and expenses from the operations, maintenance and improvements of City streets. This fund includes the Missouri Motor Fuel taxes, ½ cent sales tax and Christian County sales tax for streets.

Proprietary Fund Types: Proprietary funds are used to account for the City's ongoing activities that are similar to those often found in the private sector. The following are the City's major proprietary funds:

<u>Waterworks Fund</u> – Accounts for the provision of waterworks services to residents of the City. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, financing and related debt service, and billing and collection.

<u>Wastewater Fund</u> – Accounts for the provision of wastewater services to residents of the City. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, financing and related debt service, and billing and collection.

NOTES TO BASIC FINANCIAL STATEMENTS DECEMBER 31, 2024

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Proprietary Fund Types - continued

<u>Electrical Fund</u>— Accounts for the provision of electric services to residents of the City. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, financing and related debt service, and billing and collection.

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recognized at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the City gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable, and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 30 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, claims, and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, sales tax, intergovernmental taxes, and investment income associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the City's waterworks, wastewater, and electric function and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

NOTES TO BASIC FINANCIAL STATEMENTS DECEMBER 31, 2024

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING - continued

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided; 2) operating grants and contributions; and 3) capital grants and contributions, including special assessments. General revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operation, the principal operating revenues of the enterprise fund are charges for services. Operating expenses for the enterprise fund include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

ASSETS, LIABILITIES AND NET POSITION/FUND BALANCE

Cash and Cash Equivalents

The City pools cash resources of its various funds in order to facilitate the management of cash. Cash applicable to a particular fund is readily identifiable. The balance in the pooled cash account is available to meet current operating requirements.

Cash balances from the majority of funds recorded as restricted accounts are pooled for investment purposes. Earnings from such investments are allocated to the respective funds based on applicable cash participation by each fund. The investment pools are managed such that all participating funds have the ability to deposit and withdraw cash as if they were demand deposit accounts, and therefore all balances representing participants' equity in the investment pools are classified as cash equivalents for purposes of these statements. For investments which are held separately from the pools, those which are highly liquid (including restricted assets) with an original or remaining maturity of 90 days or less when purchased are considered to be cash equivalents.

Statement of Cash Flows

For cash flow statement purposes, the City considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

NOTES TO BASIC FINANCIAL STATEMENTS DECEMBER 31, 2024

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

ASSETS, LIABILITIES AND NET POSITION/FUND BALANCE - continued

Investments

Missouri State statutes authorize the City to invest in obligations of the U.S. Treasury, federal agencies, commercial paper, corporate bonds, and repurchase agreements. Investments are stated at fair value.

Interfund activity

Transactions among the City funds that would be treated as revenues and expenditures or expenses if they involved organizations external to City government are accounted for as revenues and expenditures or expenses in the funds involved.

Transactions which constitute reimbursements to a fund for expenditures initially made from it which are properly applicable to another fund are recorded as expenditures in the reimbursing fund.

Transactions, which constitute the transfer of resources from a fund receiving revenues to a fund through which the revenues are to be expended, are separately reported in the respective funds' operating statements.

Activity between funds that are representative of lending/borrowing arrangements at the end of the fiscal year are referred to as "due to/from other funds" in the fund financial statements. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

The City has the following types of interfund activity:

<u>Cost Reimbursements</u>-amounts provided for by the General Fund and reimbursed by the Street Fund and Proprietary Funds.

<u>Transfers</u>-flows of assets (such as cash) without equivalent flows of assets in return and without a requirement for repayment. In governmental funds, transfers are reported as other financing uses in the funds making transfer and as other financing sources in the funds receiving transfers.

NOTES TO BASIC FINANCIAL STATEMENTS DECEMBER 31, 2024

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Accounts Receivable and Allowances

All receivables were stated at gross because the amounts were collected within the following 30 days except for property taxes, refuse, electric, waterworks and wastewater utilities receivable which are net of allowances of \$ 20,629 property taxes, \$ 35,164 refuse, \$ 479,608 electric, \$ 105,363 waterworks and \$ 156,241 for wastewater. Utility receivables also includes an estimate for services rendered but not yet billed as of the close of the fiscal year.

Inventories

Inventories for the Waterworks and Electric Funds consist of consumable supplies used for emergency repairs and replacements and are stated at cost, using the first-in/first-out (FIFO) method.

Prepaid items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expense when consumed rather than when purchased.

Restricted assets

Certain General Fund monies are classified as restricted assets on the Statement of Net Position and Balance Sheet because the City has received grant monies but have not been expended in accordance with the grant agreement.

Capital Assets and Depreciation

Capital assets, which include property, equipment, and infrastructure (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets, as applicable.

NOTES TO BASIC FINANCIAL STATEMENTS DECEMBER 31, 2024

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets and Depreciation - continued

Depreciation has been provided over the estimated useful lives using the straight-line method of depreciation. The estimated useful lives for each major class of depreciable capital assets are as follows:

Buildings	7-40 years
Site improvements	7-55 years
Streets	20-40 years
Furniture and equipment	7-20 years
Right to use lease vehicles	4-years
Vehicles	5-10 years

Deferred Outflows of Resources/Loss on Refunded Debt

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. At this time, the City has two items that meet the definition of deferred outflows of resources. One is the deferred charge on refunding reported in the government-wide statement of net position and the statement of net position for proprietary funds. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The second is the amount related to pension outflows as per GASB 68.

Deferred Inflows of Resources/Unavailable Revenue/Gain on Refunded Debt

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until then. In the Governmental Funds the item reported as a deferred inflow of resources arises only under a modified accrual basis of accounting. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes as these amounts are deferred and will be recognized as an inflow of resources in the period in which the amounts become available.

NOTES TO BASIC FINANCIAL STATEMENTS DECEMBER 31, 2024

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Deferred Inflows of Resources/Unavailable Revenue/Gain on Refunded Debt - continued At this time, the City has two items that meet the definition of deferred inflows of resources. It is the deferred gain on refunding reported in the government-wide statement of net position and the statement of net position for proprietary funds. A deferred gain on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The second item is related to pension inflows as per GASB 68.

Obligation for Bond Arbitrage Rebate

Pursuant to Section 148(f) of the U. S. Internal Revenue Code, the City must rebate to the United State Government the excess of interest earned from the investment of certain debt proceeds and pledged revenues over the yield rate of the applicable debt. Arbitrage rebate, if any, is due and payable on each five-year anniversary of the respective debt issue. As of December 31, 2024, the City had no outstanding arbitrage rebate liability.

Vacation, sick leave, and other compensated absences

City employees are entitled to certain compensated absences based on their length of employment. All vacation and sick pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Missouri Local Government Employees Retirement System (LAGERS) and additions to/deductions from LAGERS fiduciary net position have been determined on the same basis as they are reported by LAGERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTES TO BASIC FINANCIAL STATEMENTS DECEMBER 31, 2024

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Long-term Debt

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt is reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, and losses on refunding are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed during the current period.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Fund Balances-Governmental Funds

As of December 31, 2024, fund balances of the governmental funds are classified as follows:

Non-spendable-This classification includes amounts that cannot be spent either because they are not in a spendable form or because they are legally or contractually required to be maintained intact.

Restricted-This classification includes amounts that can be spent only for specific purposes because of the City Charter, City Code, state or federal laws, or externally imposed conditions by grantors or creditors.

Committed-This classification includes amounts that can be used only for specific purposes determined by a formal action by the City Council. Such formal action may be in the form of an ordinance and may only be modified or rescinded by a subsequent formal action.

Assigned-This classification includes amounts that are intended by the City to be used for a specific purpose but are neither restricted nor committed. Assignments may be made only by the government body or official.

Unassigned-This classification represents the residual positive balance within the General Fund, which has not been restricted, committed, or assigned. In funds other than the General Fund, unassigned fund balances are limited to negative residual balances.

NOTES TO BASIC FINANCIAL STATEMENTS DECEMBER 31, 2024

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Balances-Governmental Funds-continued

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances is available, the City considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the City considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the City Council has provided otherwise in its commitment or assigned actions.

The fund balance of the City's General Fund and Street Fund have been accumulated to provide stability and flexibility to respond to unexpected adversity and/or opportunities. Currently the General Fund has set aside \$ 3,913,672 and the Street Fund \$ 681,678. The Park Department has set aside \$ 198,463 for future repairs to the park pool, community center, and replacement of fitness equipment.

Net Position

Net position represents the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources. Net investment in capital assets consists of cost of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction, or improvement of those assets. This net investment in capital assets amount also is adjusted by any bond issuance deferral amounts. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. All other net position is reported as unrestricted.

The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Leases

Lessee: The City of Nixa is a lessee for a noncancellable lease of vehicles. The City of Nixa recognizes a lease liability and an intangible right-to-use lease asset in the government-wide financial statements. The City of Nixa recognizes lease liabilities with an initial, individual value of \$ 5,000 or more.

At the commencement of a lease, the City of Nixa initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payment made. The lease asset is initially measured as the initial amount of the lease liability,

NOTES TO BASIC FINANCIAL STATEMENTS DECEMBER 31, 2024

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Leases - continued

adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgements related to leases include how the City of Nixa determines

- (1) the discount rate it uses to discount the expected lease payments to present value,
- (2) lease term, and (3) lease payments.
 - The City of Nixa uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the City of Nixa generally uses its estimated incremental borrowing rate as the discount rate for leases.
 - The lease term includes the noncancellable period of the lease. Lease
 payments included in the measurement of the lease liability are composed of
 fixed payments and purchase option price that the City of Nixa is reasonably
 certain to exercise

The city of Nixa monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

Lessor: the City of Nixa is a lessor for a noncancellable lease of tower space. The City recognizes a lease receivable and a deferred inflow of resources in the waterworks fund and the business-type activities.

At the commencement of a lease, the City of Nixa initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Key estimates and judgements include how the City of Nixa determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts.

NOTES TO BASIC FINANCIAL STATEMENTS DECEMBER 31, 2024

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Leases - continued

- The City of Nixa uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease receipts included in the measurement of the lease receivable is composed of fixed payments from the lessee.

The city of Nixa monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

Use of Estimates

The preparation of basic financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results could differ from those estimates.

Revenue Recognition - Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and are due and payable at that time. All unpaid taxes levied October 1 become delinquent January 1, of the following year. Valuation for 2024 was \$ 397,671,517 with the levy set at \$.2981 for General Fund purposes only.

Revenue Recognition - Sales & Use Tax authorizations

Sales tax authorizations consist of a one-cent general sales recorded in the General Fund (\$ 3,734,726), a Police 3/4 sales tax (\$ 2,767,413) a use tax of (\$ 1,885,602), one-half cent transportation sales tax to be used for street purposes in the Street Fund (\$ 1,863,065).

Fee in Lieu of Taxes

The Waterworks and Electric Funds make an annual payment in lieu of taxes to the General Fund, which is based on a percentage of sales of utilities. That payment is reflected as a transfer on the statement of revenues, expenditures, and changes in net position.

NOTES TO BASIC FINANCIAL STATEMENTS DECEMBER 31, 2024

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Excess of expenditures over appropriations

For the year ended December 31, 2024, expenditures did not exceed appropriations in any fund.

Debt restrictions

General obligation debt

Article VI, Sections 26 (b) and (c), Constitution of Missouri, limits the outstanding amount of authorized general obligation debt of a City to 20 percent of the assessed valuation of taxable tangible property as shown by the last completed assessment for state or county purposes. Authorization for debt issuance requires four-sevenths at the general municipal election day, primary or general elections and two-thirds at all other elections, vote of the qualified electors thereof. The City on December 31, 2024, had no outstanding general obligation debt.

NOTES TO BASIC FINANCIAL STATEMENTS DECEMBER 31, 2024

DETAILED NOTES ON ALL FUNDS

NOTE B – DEPOSITS AND INVESTMENTS

<u>Deposits</u>. Custodial credit risk for deposits is the risk that in the event of a bank failure, the City's deposits may not be returned, or the City will not be able to recover collateral securities in the possession of an outside party. The City's bank deposits are required by state law to be secured by the deposit of certain securities specified at RSMo 30.270 with the City or trustee institution. The value of the securities must amount to the total of the City's cash not insured by the Federal Deposit Insurance Corporation.

As of December 31, 2024, all of the City's checking accounts, money markets, and short-term certificates of deposits were entirely secured or collateralized with securities held by the City or by its agent in the City's name. For the year ended the City did not have any accounts that would qualify as investments.

Investment Policies

Credit Risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The City does have a written investment policy covering credit risk.

Interest Rate Risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes. The City's policy is to limit the length of investments to meet cash flow requirements for ongoing operations, thereby avoiding the need to sell securities before maturity.

Concentration of Credit Risk is the risk of loss attributed to the magnitude of the City's investment in a single issuer. The City policy is to invest in only those instruments approved by the State of Missouri which have minimal risk.

Custodial Credit Risk is the risk that in the event of a broker/agent failure, securities that are uninsured and not registered in the name of the City and are held by either the counterparty to the transaction or the counterparty's trust department or agent but not in the government's name will not be returned to the City. The City does have a written investment policy on custodial credit risk in which all investments are either insured or registered in the City's name and held by the City's agent.

NOTES TO BASIC FINANCIAL STATEMENTS DECEMBER 31, 2024

NOTE C - RESTRICTED ASSETS

For December 31, 2024, restricted cash accounts were as follows:

GENERAL FUND Actual

Cash

ARPA grant funds \$ 2,931,019

NOTE D - CAPITAL ASSETS AND DEPRECIATION

Capital asset activity for the year ended December 31, 2024, was as follows:

Governmental Activities:

	Begin	ning					Ending
	Bala	nce	Increase	s E	Decreases		Balance
Capital assets, not being depreciated:

Total long-term liabilities	\$ 2,184,078

NOTES TO BASIC FINANCIAL STATEMENTS DECEMBER 31, 2024

NOTE F - CAPITALIZED LEASE OBLIGATION

Governmental Activities

Beginning August 2022, the City entered into lease agreements for purchase of 12 police vehicles. Since then, the City has continued to add vehicles to its governmental fleet. The following balance represents the outstanding lease principal for the governmental fleet vehicles.

\$1,381,719

Although the agreement provides for cancellation clauses each year, generally accepted accounting standards addresses the legal restriction imposed, and for financial statement presentation, requires the lease to be accounted for as a lease.

On December 31, 2024, future minimum lease payments by year and the present value of future minimum lease payments were as follows:

	Governmental Activities			
Year Ending	Leased Vehicles			
December 31,	Principal	Interest		
2025	\$ 474,942	\$ 88,329		
2026	435,104	52,957

2028	164,968	5,612		

NOTES TO BASIC FINANCIAL STATEMENTS DECEMBER 31, 2024

NOTE G - OBLIGATION TO PURCHASE ELECTRIC POWER

The City has four electric purchase contracts for its electric energy and transmission.

Under contract DE-PM75-88SW00172, dated June 6, 1988, and subsequently amended, the City purchases 5,300 kilowatts (kw) of hydro-power form Southwest Power Administration (SWPA). The City currently pays \$4.50 per kw for this electric power.

In addition to the above agreement, the City entered into a power purchase agreement with Nixa Solar, LLC and began receiving solar energy in November 2019. Total annual power from this contract is anticipated to be approximately 15,000,000 kilowatt hours of energy through 2043.

The City entered into a new 10-year purchase agreement with Evergy Kansas Central to cover all energy needs required above that which SWPA and Nixa Solar provide. The City's 2024 peak electric demand was 54 Megawatts of electricity. Beginning December 1, 2021, the City entered into capacity agreements with Evergy Kansas Central for 30 MW of power from Dogwood Energy and 15 MW from GRDA. At the same time, a 10 MW capacity agreement for wind power was activated with Nextera Energy to increase our percentage of renewable power.

Transmission for energy continues to be provided by Southwest Power Pool (SPP) under a network service contract. Services by SPP began in June 2019.

NOTE H - RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City maintains commercial insurance coverage for property damage and various Missouri Official's bonds. Management believes coverage is sufficient to preclude any significant uninsured losses to the City.

On December 31, 2024, the City maintained commercial insurance coverage for building and contents and employee theft. In the past three years the City has had no losses that exceeded commercial insurance coverage.

NOTES TO BASIC FINANCIAL STATEMENTS DECEMBER 31, 2024

NOTE I – DEFINED BENEFIT PENSION PLAN

The City of Nixa participates in the Missouri Local Government Employees Retirement System (LAGERS). LAGERS is an agent multiple-employer, statewide public employee retirement plan for units of local government which is legally separate and fiscally independent of the State of Missouri. The retirement system covers all City employees.

Plan description

The City of Nixa's defined benefit pension plan provides certain retirement, disability and death benefits to plan members and beneficiaries. The City of Nixa participates in the Missouri Local Government Employees Retirement System (LAGERS). LAGERS is an agent multiple-employer, statewide public employee pension plan established in 1967 and administered in accordance with RSMo. 70.600-70.755. As such, it is LAGERS responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401 (a) and is tax exempt. The responsibility for the operations and administration of LAGERS is vested in the LAGERS Board of Trustees consisting of seven persons. LAGERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by accessing the LAGERS website at www.molagers.org.

Benefits provided

LAGERS provides retirement, death and disability benefits. Benefit provisions are adopted by the governing body of the employer, within the options available in the state statutes governing LAGERS. All benefits vest after 5 years of credited service. Employees who retire on or after age 60 (55 for police and fire) with 5 or more years of service are entitled to an allowance for life based upon the benefit program information provided below. Employees may retire with an early retirement benefit with a minimum of 5 years of credited service and after attaining age 55 (50 for police and fire) and receive a reduced allowance.

NOTES TO BASIC FINANCIAL STATEMENTS DECEMBER 31, 2024

NOTE I – DEFINED BENEFIT PENSION PLAN (Continued)

	2024 Valuation
Benefit Multiplier:	2.00%
Final Average Salary:	5 years
Member Contributions:	0.00%

Benefit terms provide for annual post retirement adjustments to each member's retirement allowance subsequent to the member's retirement date. The annual adjustment is based on the increase in the Consumer Price Index and is limited to 4% per year.

Employees covered by benefit terms

On June 30, 2024, the following employees were covered by the benefits terms:

Inactive employees or beneficiaries currently receiving benefits	72
Inactive employees entitled to but not yet receiving benefits	77
Active employees	137
Total	286

Contributions

The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by LAGERS. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance an unfunded accrued liability. Employer's contribution rates are 16.3 % General and 16.1% Police of annual covered payroll.

Net Pension Liability

The employer's net pension liability was measured as June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of February 28, 2024.

NOTES TO BASIC FINANCIAL STATEMENTS DECEMBER 31, 2024

NOTE I – DEFINED BENEFIT PENSION PLAN (Confinued)

Actuarial assumptions

The total pension liability in the February 28, 2024, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75% wage inflation: 2.25% price inflation
Salary increase	2.75% to 6.75% including wage inflation
Investment rate of return	7.00% net of investment expenses

Mortality rates were based on the healthy retiree mortality tables, for post-retirement mortality, used in evaluating allowances to be paid were 115% of the PubG-2010 Retiree Mortality Table for males and females. The disabled retiree mortality tables, for post-retirement mortality, used in evaluating allowances to be paid were 115% of the PubNS-2010 Disabled Retiree Mortality Table for males and females. The pre-retirement mortality tables used were 75% of the Pubg-2010 Employee Mortality Table for males and females of General groups and 75% of the PubS-2010 Employee Mortality Table for males and females of Police, Fire and Public Safety groups.

The long-term expected rate of return on pension plan investments was determined using a model method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
Equity	43.00%	5.29%
Fixed Income	26.00%	2.23%
Real Assets	21.00%	3.31%
Strategic Assets	10.00%	5.73%

NOTES TO BASIC FINANCIAL STATEMENTS DECEMBER 31, 2024

NOTE I - DEFINED BENEFIT PENSION PLAN (Continued)

Discount rate

The discount rate used to measure the total pension liability is 7.0%. The projection of cash flows used to determine the discount rate assumes that employer and employee contributions will be made at the rates agreed upon for employees and the actuarially determined rates for employers. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to pay all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payment to determine the total pension liability.

Changes in the Net Pension Liability

NOTES TO BASIC FINANCIAL STATEMENTS DECEMBER 31, 2024

NOTE I – DEFINED BENEFIT PENSION PLAN (Continued)

Sensitivity of the net pension liability to changes in the discount rate

The following presents the Net Pension Liability of the employer, calculated using the discount rate of 7.00%, as well as what the employer's Net Pension Liability would be using a discount rate that is 1 percentage point lower 6.00% or one percentage point higher 8.00% than the current rate.

	Current Single Discount					
	1%	1% Decrease Rate Assumption			1% Increase	
	6.00%			7.00%		8.00%
Net Pension Liability (Asset)	\$	8,726,994	\$	3,264,281	\$	(1,184,807)

<u>Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources</u> Related to Pensions

For the year ended December 31, 2024, the employer recognized pension expense of \$ 283,763. The employer reported deferred outflows and inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Differences in actual and expected experience	\$	2,596,819	\$	(57,867)
Changes in assumptions		4,525		(83,611)
Net differences between projected and actual				
earnings on plan investments		855,144		-
Pension contributions subsequent to measurement date		746,649		_
Total	\$	4,203,137	\$	(141,478)

^{*}The amount of \$ 746,649 reported as deferred outflows of resources resulting from contributions subsequent to the measurement date will be recognized as a reduction in the Net Pension Liability for the year ending December 31, 2025.

NOTES TO BASIC FINANCIAL STATEMENTS DECEMBER 31, 2024

NOTE I – DEFINED BENEFIT PENSION PLAN (Continued)

Amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended:	
2025	\$ 523,014
2026	1,239,179
2027	835,790
2028	558,530
2029	158,497
Thereafter	 _
Total	\$ 3,315,010

Payable to the Pension Plan

On December 31, 2024, the City of Nixa reported a payable of \$ 0.00 for the outstanding amount of contributions to the pension plan required for the year ended December 31, 2024.

NOTE J – GRANTS

Intergovernmental awards received by the City are subject to audit and adjustment by the grantor agencies. If grant revenues are received for expenditures, which are subsequently disallowed, the City may be required to repay the revenues to the funding agencies. No disallowed costs have resulted from this audit and management believes that further examination will not result in any disallowed costs.

NOTE K – CONTINGENCIES

<u>Litigation</u> – Various claims and lawsuits are pending against the City. In the opinion of the City's management, the potential loss on all claims and lawsuits will not be significant to the City's financial statements.

NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2024

NOTE L - FUND BALANCE

The governing council has adopted a financial policy to maintain a minimum level of unrestricted fund balance in all funds. The target level is set as a percentage of budgeted operating expense/expenditures as follows:

		Dollar
	Percentage	Amount
General Fund	30%	\$ 3,913,672
Street Fund	25%	681,678
Electric Fund	20%	3,301,336
Waterworks Fund	25%	906,532
Wastewater Fund	25%	738,692

NOTE M – FEE IN LIEU OF TAXES

The Waterworks and Electric Fund pays 5% of sales to the General as follows:

Fee in Lieu of	То	From	
General Fund	\$1,100,932	\$	-
Electric Fund	-	899,366	5
Waterworks Fund		201,566	5
	\$1,100,932	\$ 1,100,932	2

NOTE N- PRIOR YEAR DEFEASANCE OF DEBT

In prior years, the City has defeased various bond issues by creating separate irrevocable trust funds. New debt has been issued, and the proceeds have been used to purchase U.S. government securities that were placed in the trust funds. The investments and fixed earnings from the investments are sufficient to fully service the defeased debt until the debt is called or matures. For financial reporting purposes, the debt has been considered defeased and therefore removed as a liability from the City's government-wide financial statements and proprietary funds financial statements. As of December 31, 2024, the amount of defeased debt outstanding amounted to \$1,295,000.

NOTES TO BASIC FINANCIAL STATEMENTS DECEMBER 31, 2024

NOTE P- FUTURE ACCOUNTING PRONOUNCEMENTS

The accounting principles governing the reported amounts, presentation and related disclosures are subject to change from time to time based on new pronouncements and/or rules issued by various governing bodies. The Governmental Accounting Standards Board (GASB) is responsible for establishing generally accepted accounting principles (GAAP) for state and local governments.

The City adopted the following statements during the year ended December 31, 2024:

GASB Statement No. 100, Accounting Changes and Error Corrections-An Amendment of GASB, Statement No. 62., Issued June 2022, This Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. The effective date of this requirement is for fiscal years ending after June 15, 2023. Earlier application is encouraged.

GASB Statement No. 101, Compensated Absences, Issued June 2022. This statement is to better meet the information needs of financial statements users by updating the recognition and measurement guidance for compensated absences. The effective date of this requirement is for fiscal years ending after December 15, 2023. Earlier application is encouraged.

GASB Statement No. 102, Certain Risk Disclosures, Issued December 2023. This statement is to provide users of governmental financial statements with essential information about risks related to a government's vulnerabilities due to certain concentrations or constraints. The effective date of this requirement is for fiscal years ending after June 15, 2024. Earlier application is encouraged.

The City did not have any changes to report for the year ending December 31, 2024, upon adopting GASB 102. The City noted in footnote Q the changes due to adoption of 100 and 101.

GASB Statement No. 103, Financial Reporting Model Improvements, Issued April 2024. The objective of this Statement is to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. This statement also addresses certain application issues. The effective date of this requirement is for fiscal years ending after June 15, 2025. Earlier application is encouraged.

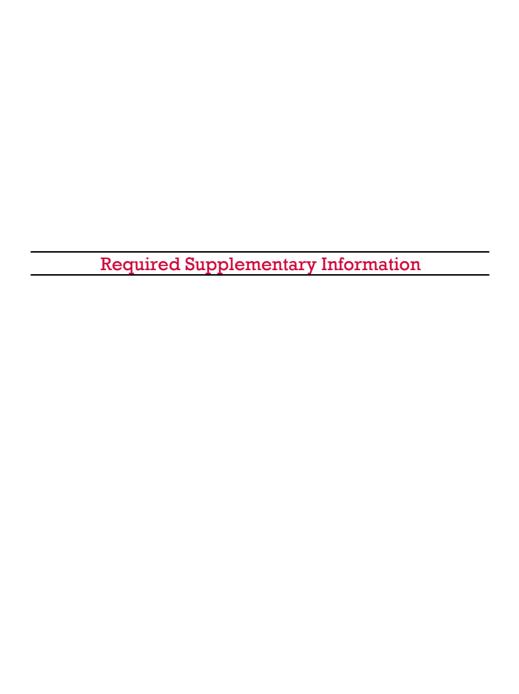

GASB Statement No. 104, Disclosure of Certain Capital Assets, Issued September 2024. The objective of this Statement is to provide users of government financial with essential information about certain types of capital assets. The effective date of this requirement is for fiscal years ending after June 15, 2025. Earlier application is encouraged.

NOTES TO BUDGETARY COMPARISON INFORMATION DECEMBER 31, 2024

BUDGETARY PROCESS

The City Council follows the procedures outlined below in establishing the budgetary data reflected in the basic financial statements:

- Prior to December 31, the City Council appropriates, by ordinance, the annual operating budget for the fiscal year beginning the following January 1 for the General and Special Revenue Funds. The budget is prepared on the same basis of accounting as the financial statements (Modified Accrual Basis). The City Council also adopts, as a management control device only, a budget for the Enterprise Funds.
- The level of budgetary control lies at the fund level for all governmental funds.
 The City Administrator is not authorized to approve expenditures in excess of the adopted budget.
- 3. The City Council may, by ordinance, make supplemental appropriations for revenues in excess of original budget estimates or reduce appropriations should revenues be insufficient to meet the amount appropriated. State statutes prohibit deficit budgeting by requiring that estimated expenditures for the period do not exceed estimated revenues for the period plus unencumbered budget basis fund balances at the beginning of the period.

For the year ended December 31, 2024, expenditures did not exceed appropriations in any of the funds.

NOTES TO SCHEDULE OF CONTRIBUTIONS

Valuation Date: February 29, 2024

Notes: The roll-forward of total pension liability from February 28, 2024 to

June 30, 2024 reflects expected service cost and interest reduced

by actual benefit payments.

Methods and Assumptions Used to Determine Contribution Rates:

Actuarial Cost Method Entry Age Normal and Modified Terminal Funding

Amortization Method A level percentage of payroll amortization method is used to

amortize the UAAL over a closed period of years. If the UAAL (excluding the UAAL associated with benefit changes) is negative, then this amount is amortized over the greater of (i) the remaining

initial amortization period or (ii) 15 years.

Remaining Amortization Period Multiple bases from 7 to 18 years

Asset Valuation Method

Inflation

Salary increases

7.00%, net of investment expenses

5-Year smoothed market: 20% corridor
2.75% wage inflation; 2.25% price inflation
2.75% to 6.55% including wage inflation
7.00%, net of investment expenses

Retirement Age Experience-based table of rates that are specific to the type of

eligibility condition.

Mortality The healthy retiree mortality tables, for post-retirement mortality,

used in evaluating allowances to be paid were 115% of the PubG-2010 Retiree Mortality Table for males and females. The disabled retiree mortality tables, for post-retirement mortality, used in evaluating allowances to be paid were 115% of the PubNS-2010 Disabled Retiree Mortality Table for males and females. The preretirement mortality tables used were 75% of the PubG-2010 Employee Mortality Table for males and females of General groups

Employee Mortality Table for males and females of General groups and 75% of the PubS-2010 Employee Mortality Table for males and

females of Police, Fire and Public Safety groups.

Mortality rates for a particular calendar year are determined by applying the MP-2020 mortality improvement scale to the above

described tables.

Note:

As set out in Section 32.057 of the Missouri Revised State Statues, it is a violation to make known in any manner the tax returns of departmental records derived from the Missouri Department of Revenue, including sales taxes, franchise fees, and other tax sources. Due to the confidentiality of earnings information, the above alternative information is provided to assist the users in understanding these revenue sources, including sales taxes, the City's largest own-source revenue.

Subtotal, overlapping debt Subtotal, direct debt	1,381,719		111,183,748
Total direct and overlapping debt	\$ 168,092,792		\$ 112,565,467

Source: Nixa School District, Nixa Fire Department and Christian County Clerk

Note: Overlapping governments are those that coincide, in part or in total, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the property taxpayers of the City of Nixa. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the property taxpayers should be taken into account. However, this does not imply that every taxpayer is a resident and responsible for repaying the debt of each overlapping government.

The percentage of overlapping debt applicable is estimated using the assessed property values. The applicable percentage is estimated by dividing the City's assessed valuation by the applicable governmental unit's total assessed valuation.

Section 95.115 of the 1978 Missouri Revised Statutes permits any county or city, by vote of two-thirds of qualified electors voting theron, to incur additional indebtedness for city purposes not to exceed five (5) percent of the taxable tangible property therein, as shown by the last assessment.

Section 95.120 of the 1978 Missouri Revised Statutes permits any county or city, by vote of two-thirds of qualified electors voting theron, to incur additional indebtedness for city purposes not to exceed five (5) percent of the taxable tangible property therein, as shown by the last assessment.

Sections 95.125 and 95.130 of the 1978 Missouri Revised Statutes provide that any city may become indebted, not exceeding in the aggregate, an additional ten (10) percent for the purposes of acquiring right-of-ways, constructing, extending and improving streets and avenues and/or sanitary or storm sewer system, and an additional ten (10) percent for purchasing or construction of waterworks, electric or other light plants, provided the total general obligation indebtedness of the city does not exceed twenty (20) percent of the assessed valuation.

SECTION IV - SINGLE AUDIT

Decker & Pace

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the City Council City of Nixa, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, and each major fund, of City of Nixa, Missouri, as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise City of Nixa. Missouri's basic financial statements, and have issued our report thereon dated May 6, 2025.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered City of Nixa, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of Nixa, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of City of Nixa, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of Nixa, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the City Council City of Nixa, Missouri

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited City of Nixa, Missouri's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of City of Nixa, Missouri's major federal programs for the year ended December 31, 2024. City of Nixa, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, City of Nixa, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of City of Nixa, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of City of Nixa, Missouri's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to City of Nixa, Missouri's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on City of Nixa, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about City of Nixa, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, Government Auditing Standards, and the Uniform Guidance, we:

Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit
 procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding City of
 Nixa, Missouri's compliance with the compliance requirements referred to above and performing such other
 procedures as we considered necessary in the circumstances.
- Obtain an understanding of City of Nixa, Missouri's internal control over compliance relevant to the audit in order
 to design audit procedures that are appropriate in the circumstances and to test and report on internal control over
 compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the
 effectiveness of City of Nixa, Missouri's internal control over compliance. Accordingly, no such opinion is
 expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE YEAR ENDED DECEMBER 31, 2024

NOTE TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

NOTE A - BASIS OF PRESENATION

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal activity of the City of Nixa, Missouri, under programs of the federal government for the year ended December 31, 2024. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of City of Nixa, Missouri, it is not intended to and does not present the financial position, changes in net position, or cash flows of City of Nixa, Missouri.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on accounting principles generally accepted in the United States of America. Such expenditures are recognized following the cost principles contained in the Uniform Guidance and/or OMB Circular A-87, Cost Principles for State, Local, and Indian Tribal Governments wherein certain types of expenditures are not allowable or are limited as to reimbursement.

NOTE C - INDIRECT COST RATE

City of Nixa, Missouri, has elected not to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance.
