Subject: 2026 Budget

Staff respectfully submits a balanced 2026 budget for Council's review and approval. The budget reflects our continued commitment to responsible stewardship, transparent decision-making, and the delivery of high-quality services to our community.

The 2026 budget projects total City revenues at \$79,969,235, with total operating expenses at \$24,503,416 and personnel expenses of \$19,414,097. During 2026, the City is scheduled to pay \$2,231,202 toward debt and lease obligations during the year. Capital Improvement project (CIPs) expenditures for 2026 are slated at \$50,336,456. These CIPs include \$250,000 for land, \$333,500 for improvements, \$14,908,000 for buildings, \$1,637,763.19 for building improvements, \$1,068,171.70 for vehicles, \$2,441,183.50 for equipment, and \$29,697,837.20 for infrastructure. The City's end-of-year unrestricted fund balance is projected at \$25,578,149.

As prepared, the 2026 budget includes a 2.7% Cost of Living Adjustment (COLA) for all employees, effective January 1, 2026. In 2023, The City contracted with CBIZ to conduct a compensation study. The results of the study provided an updated pay scale along with the 25th, 50th, and 75th percentiles of the market. In 2025, the employees that are at a paygrade 9 and below in the Street Department, Water Department, and Wastewater Department were brought to the 50th percentile. The personnel expenses within the 2026 budget include an increase to the appropriate salaries, as determined by CBIZ, to bring the remaining employees up to the 50th percentile of the market. There are no additional merit increases budgeted for 2026.

Medical insurance costs increased 9.1%. This increase in costs will include a 9.1% increase in employee costs for dependents as well as a 9.1% increase in the City's costs for employee premiums. Dental insurance increased 4%, while vision and life insurance had no additional increase. The City also affords employees with a retirement plan that is known as LAGERS. The City of Nixa is a non-contributory city, which means the City pays 100% of the costs for LAGERS. In 2026, the general employee's costs went up from 17.3% to 17.4% and the police officers went up from 17.1% to 17.9%.

Summary

At the Mayor's and Council's direction, staff focused on aligning all employee compensation with the 50th percentile of the market as part of the 2026 budget process. To achieve this, careful reductions were made in operating expenses and select CIP projects were adjusted. While 2026 will be a lean year, staff remains committed to providing the high-quality services our community expects and deserves, guided by Nixa's values of integrity, service, and accountability. These thoughtful adjustments position the City for continued financial strength, while anticipated commercial growth will expand the tax base and further support the long-term sustainability of City operations.

Sincerely,

Jimmy Liles | City Administrator

Budget Process

Although Missouri State Statutes only require that General fund and Special Revenue funds be annually appropriated, according to Part I, Article VIII, Section 8.3 of the City of Nixa's Home Rule Charter, all City funds are budgeted. Budgets are viewed as a management control tool and a financial plan to monitor and measure expenditure levels. Budgeting of the enterprise activity is necessary to ensure the level of user rates is sufficient to cover costs and meet bondholder requirements for debt coverage.

The annual budget is adopted before the beginning of the fiscal year. After the budget is established, Council may make any budgetary amendments by Ordinance. The City Council sets the parameters for the annual budget process, including priority of services, balancing the budget and internal controls.

Basis of Budgeting

The City of Nixa uses a “cash basis” of budgeting for all fund types. This means that the city budget is based on expected cash receipts and disbursements. Encumbrances and depreciation are not budgeted. The City’s total proposed expenditures may not exceed the estimated revenues to be received plus any unencumbered cash reserves estimated to be on hand at the beginning of the budget year. In the case of an emergency or a contingency, which was not reasonably foreseeable, a budget amendment would be required.

The City’s budget represents a financial plan for the fiscal year setting forth all estimated expenditures, revenues, and other financing sources for the ensuing budget year, together with the corresponding figures for the previous fiscal year. In estimating the anticipated revenues, consideration must be given to any unexpected surpluses and the historical data of sales tax receipts. Further, the budget must show a balanced relationship between the total proposed expenditures and the total anticipated revenues with the inclusion of beginning funds.

Basis of Accounting

All governmental fund types use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt are recorded as fund liabilities when due. Those revenues susceptible to accrual are sales and use taxes, Missouri County Aid Road Trust (CART) funds, and franchise tax.

Proprietary fund types utilize the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Bridging the Basis of Budgeting and Accounting

Some of the differences between the cash basis of budgeting and the accrual method of accounting are:

Debt payment for principal – budgeted as an expense item, adjusted at year-end against the liability.

Depreciation - recorded for proprietary funds on an accrual basis, eliminated for budget purposes.

Encumbrances – recorded as a reserve of fund balance on the modified accrual basis, on a cash basis for budgeting recorded as a reserve of budgeted funds.

Compensated Absences – adjusted annually using the accrual method, not budgeted but absorbed by turnover and usage.

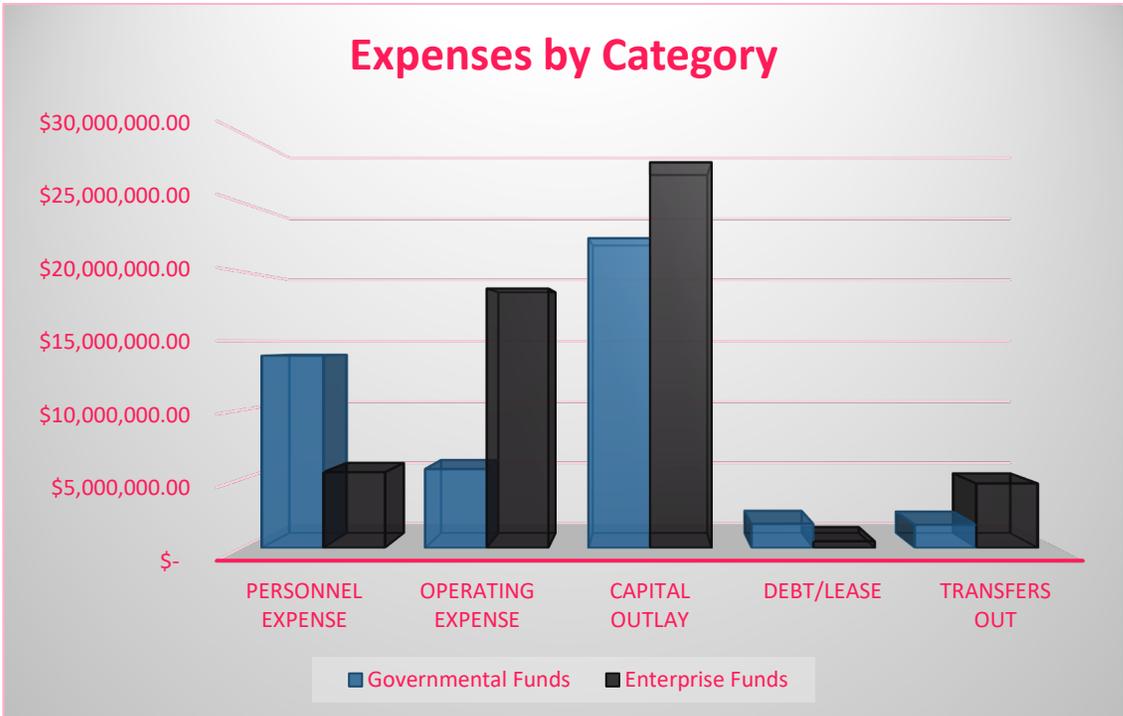

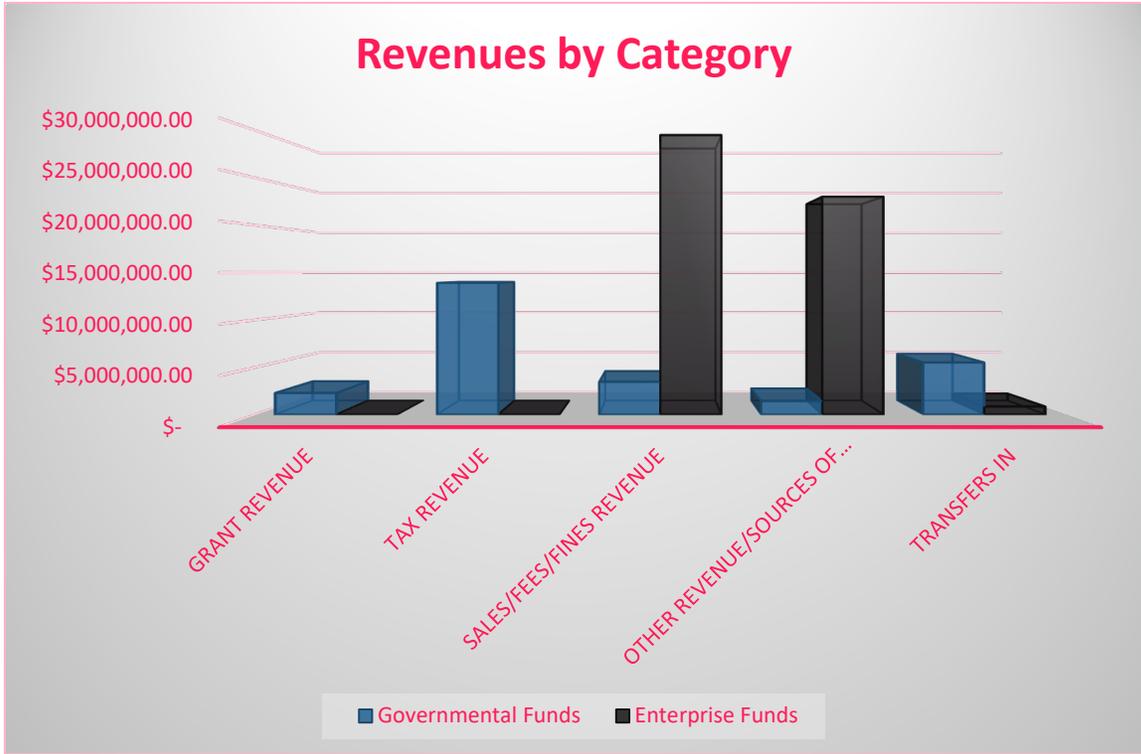

Tax revenue accruals – even though tax revenues are accrued when they become collectible, it will translate to twelve months of tax revenue matching twelve months of budgeted revenue.
